## COURSE REQUIREMENTS

This is a fully online course. Assignments will be delivered via the D2L learning media platform. Knowledge of the substantive material covered in the course is of central importance. Grading will include consideration of content as well as grammar, spelling, organization, and explicit use of readings. A serious commitment to mastery of the content and contribution to everyone's learning is expected. An online course inherently requires students to be active, reflective, and contributive learners.

Assigned readings are noted within the module overview as well as on the course schedule. Required module readings will serve as a basis for online discussion. Late submissions, one week past the due date **WILL NOT** be accepted, and each day late will incur 10% score deduction. I do understand that sometimes there are circumstances outside one's control that may impact timely submission of assignments, such as jury duty, hospitalization, or death of a family member. In these instances, a student is expected to notify the instructor **BEFORE** the assignment deadline.

### Course Grade Determination:

#### Module Leadership Surveys (10 x 5 = 50 points)

*The syllabus/schedule are subject to change.*

Each module has selected leadership surveys to complete at the beginning. Last two modules do not have surveys to complete (to give more time to finish the research paper).

**Discussion Boards (6 at 20 points each = 120 points total):**

Each discussion thread topic will require a “post” and at least one “reply” to fellow classmate’s posts.

**Initial Post (80%):** Module discussion is to verify your understanding of readings and applying learning to your own work. You will not be able to read other’s post until you post your own work. Students will need to complete an initial “post” to each discussion board thread at least 3 days before the module end date (always TH during the week). Review “post” content for correct grammar and spelling.

**Replies (20%):** The sharing of feedback with your classmates is expected to strengthen the application of module learning to your (dissertation) research. Review “reply” content for correct grammar and spelling. It is suggested that each reply consist of a minimum of four to five complete sentences.

**Research Paper (50 points):**

The major paper/project for the class is a mini-interview research paper that will be a synthesis and application of organizational leadership content as it applies to organizational settings. More details can be found in the course shell.

American Psychological Association (APA) 6th edition formatting is required for all writing assignments.

## TECHNOLOGY REQUIREMENTS

### Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
