COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings

Textbook: Business Analytics 3e, Camm/Cochran/Fry/Ohlmann/Anderson/Sweeney/Williams, (2019) ISBN-13: 9781337406420 | ISBN-10: 1337406422

REQUIRED SOFTWARE: Please submit ALL assignments in a format that is compatible with Microsoft Office. **It is required to be in the .doc or .docx format.**

Course Description

This course provides students an opportunity to understand the underlying framework of business analytics, the role of big data in today's dynamic organizational environment and using analytical models in business operations and decision making. Through a combination of lectures and business case studies, graduate students will learn how big data can support manager's decision making and how business analytics can be leveraged by organizations to gain a competitive advantage. The case studies explored will illustrate how companies take advantage of different sources of data with different analytical techniques to improve performance, gain an understanding of optimizing results for better decisions, and employing analytical methods to translate data into key insights.

Objectives:

1. Learn how big data can support manager's decision making.
2. Learn how business analytics can be leveraged by organizations to gain a competitive advantage.
3. Learn how companies take advantage of different sources of data with different analytical techniques to improve performance and understand deeper concepts of business analytics.

Minimal Technical Skills Needed

The course requires the use of the learning management system (D2L), and the use of Microsoft Word, Excel and PowerPoint to conduct assignments and presentations.

Instructional Methods

The course will use a combination of lecture ppts, videos, chat sessions, and online discussions. The D2L environment will be used for class related material and document posting.

Student Responsibilities or Tips for Success in the Course

Regularly logging into the course website is required. Students are required to check their email at least once a day to avoid missing notifications and updates of course processes. Although the professor will send reminder emails when an assignment is due, it is students' responsibility to meet all deadlines. It is the responsibility of the student to ensure that all notifications and materials sent to the professor are received by the professor. You should plan your time carefully.

Deadlines are absolute:

All discussions, assignment and exams must be completed on the due date. Late work will not be accepted and will be graded as zero.

Email Policy:

When you send me email, be sure to include the course title (BUSA511) and section number in the subject line. I receive more than 50 emails a day. To ensure that your email reaches my inbox and reduce confusions, do include your course title and section number in your email subject line.

Academic Honesty Policy

Students are required to sign and return the academic honesty policy document during the first week of the class. Any form of cheating is not allowed or tolerated in this class and will be reported to the college and graduate school. The cheating includes but is not limited to: copying,

lying, copying from another's assignment or test, changing the answers on an exam or assignment for re-grade, assisting another student in doing dishonest behavior.

Instructional Methods

This section describes how the learning process will be conducted (delivery modalities, course structure, Getting Started and types of learning activities and assessments).

Student Responsibilities or Tips for Success in the Course

Please use these tips to be successful.

1. Get the textbook. The textbook will be part of all assignments and you will have to reference specific page numbers.
2. Review all the announcements. Check email daily for any feedback I will provide. However, the email will direct you to further information.
3. Please note due dates are generally Sundays but **NOT** during the final week.

Attendance and Class Participation

Attendance and participation are vital to the success of your learning experience.

The roll will be taken during the first 5-10 minutes of the class (or chat). If you are not in class when the role is taken you will be marked as absent. Students who leave early without advance notice to the instructor and sleeping during the class session will be marked as absent.

Please note you will not be allowed to make up missed work or exams (arrangements must be made with me **prior** to the due date of the assignment or day of the exam).

It is the student's responsibility to find out from their classmates what materials were covered, distributed, or assigned during any missed classes.

The attendance policy does apply to the students of the online class. However, they are expected to be active participants of the class and will be evaluated for participation.

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.
