Student Learning Outcomes/Objectives

Research is the heart of social inquiry. In a Master-granting program, one important goal is to train graduate students to be disciplined, productive researchers. This course fulfills one of the core requirements in the sociology graduate program. It is designed to give students a broad view of the variety of

approaches for designing a good quality social research. Typically graduate students at Texas A&M University-Commerce are required to take a research methods course. The purposes or objectives of the course are:

- To develop and discipline your curiosity and passion for inquiry by converting problems and puzzles into research questions and designs for empirical research;
- To choose appropriately, and describe in detail sufficient to justify to a research design for a specific research project;
- To develop an ability to read with comprehension research reports, especially those found in professional journals. Primarily, the goal is application of information for one's professional pursuit and/or graduate study;
- To learn to write with adequate organization, clarity, and scholarly style: a research proposal, a critique of published research, a graduate paper, and a research report;
- To become familiar with the steps necessary to the writing of your master's thesis. This includes survey, ethnographic field research, unobtrusive research, and experimental types of investigations.

COURSE REQUIREMENTS

As per the university rule, students taking one course with three credit-hours are expected to spend six hours weekly online on studying lecture online, watching videos clips, reading chapters, doing assignments, and preparing quizzes and exams.

To meet those learning goals, this course requires you to demonstrate your critical engagement with the readings and issues of research design through questions, presentations and discussions in class, and proposal completion.

You will be required to prepare questions, presentations and discussions online each unit based on assigned readings. Your final grade will reflect your engagement of questions preparation, class presentations (virtual discussions) and research proposal completion. At the final stage of the course, you will be required to submit a professional research proposal for “virtually reviewing by the IRB” (Institutional Review Boards).

Attendance and Participation- Graduate study means learning to learn from every possible source -- from your readings, your peers, your life experience, your professor, and your research practice. Participating in discussions is one of the best ways to learn. You are expected to contribute your questions and insights to the virtual seminar.

The culture of the virtual seminars will, I hope, be a congenial one for self-expression. I cannot help you learn if you don't participate in virtual discussion, however. Doing excellent written work is not enough to demonstrate adequate performance in graduate study. Whatever you do, don't suffer "in silence". Say anything (typing and posting) you can defend against reasoned argument. Treat your colleagues' contributions with respect (which means taking them seriously and challenging them as well as extending basic courtesy).

The participation points will not be given to those who are missing (no online activities). Excessive tardiness may result in a further loss of points from your overall performance points. It can mean a difference of a final letter grade. Take it seriously.

Reading Summaries and Exams - Each student must be prepared to virtual discuss all the readings assigned for a virtual meeting unless the instructors explicitly specify otherwise. For selected readings, **students must submit reading summary to a DropBox (linking to TurnItIn).**

We encourage students to discuss reading materials with each other; however, each student must be the sole author of his/her written assignments. If you cannot complete assignments on time due to an emergency, you must let me know before the assignment is due.

An Initial Research Proposal (IRP) will be required to submit for your midterm exam. The length of IRP will be in about 3-4 pages. Your finalized proposal is a **Professional Research Proposal (PRP)** with length no more than 16 pages. The proposal has the following elements: specify a problem of sociological significance, convert problem into a series of hypotheses, and specify the assumptions that are implicit and explicit, literature review, operationalize the concepts, develop a questionnaire, and develop a code manual.

Pre-test and Post-test –At the beginning of the semester, every student must take a pre-test online including about 30 multiple choice questions related to basic knowledge of social research methods for undergraduate study (30 points). An online post-test will take place at the final stage of the course with 30 multiple choice questions randomly selected from the same test bank (30 points).

Grading Policy

Attendance/Online Activity	90
Reading Summaries/outlines	105
Discussions/Participations	85
Pre-test and Post-test	60
Initial Research Proposal (midterm exam)	30
Professional Research Proposal (final exam)	100
Overall performance	30
Total	500

Overall performance points (30 points) based primarily on student performance over the semester, but not just based on a ranking percentile. (See the detail at Stimulative Grading Scheme in D2L).

Final letter grade:

- A: 450-500 (Truly exceptional and outstanding work)
- B: 400-449 (Solid or near acceptable graduate-level work).
- C: 350-399 (Not acceptable level for graduate work).

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

Nondiscrimination Notice

Texas A&M University-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry Statement

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

For a list of locations, please refer to the [Carrying Concealed Handguns On Campus](#)

document and/or consult your event organizer.

Web url:

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

The Counseling Center at A&M-Commerce

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

Email Correspondence

In this course, email is an essential corresponding method and a supplement to lectures. This means that you can expect to hear from the instructor via emails regularly throughout the semester, such as using email for reminders, clarifications, last-minute notifications, etc. Needless to say, students are expected to check email regularly in daily fashion (a couple of times a day). Conversely, you should feel free to contact the instructor via email with questions, requests or problems that might not be addressed clearly in online lessons.

You may access to your email account via myLeo - all my emails sent from D2L (and all other the university's emails) will go to this account. Conversely, you are to email me via the D2L email system or your myLeo email since the university spam filters will catch yahoo, hotmail, etc. and usually the emails in spam won't be checked. Email sent to the instructor should be with a subject to "SOC 575".

HOWEVER in order to avoid duplication of questions and answers, please post all class related questions in the Virtual Office. This will be our Q&A forum. It is likely that your peers will have the same question. Emails of a personal nature or for a bonus point should be sent individually to the instructor's email address via D2L.

If you are having problems in class, please contact the instructor immediately. Please understand that you should not contact the instructor only at the end of the semester being unhappy with your grade, asking for a way to change it.

COURSE OUTLINE / CALENDAR

The course schedule is tentative and somewhat subject to change. Although this course will follow the schedule, it is possible that some adjustments will be made as we progress through the semester.
