INSTRUCTOR INFORMATION

Instructor: Karyn Miller, Assistant Professor
Office Hours: By appointment
Email Address: karyn.miller@tamuc.edu
Preferred Form of Communication: email
Communication Response Time: generally 24 hours M-F

COURSE INFORMATION

This class has an online component and will meet 4-5 times face-to-face during the semester at the Mesquite Metroplex site. We will plan to meet at 4:45pm on the following Wednesdays:

September 7, October 5, October 26, November 9, November 30

Materials Needed for the Course:

Shagoury, R. & Power, B.M. (2012) *Living the Questions: A Guide for Teacher Researchers* York, Maine: Stenhouse Publishers. ISBN 9781571108463.

APA Resource:

There are several different online reference sources for using APA formatting and citations in documents. However, there is little writing information; they are primarily for citation format information. A good example is <https://owl.english.purdue.edu/owl/>

Course Description

This course provides an overview of teacher research with an emphasis on qualitative and quantitative methodologies. Students will produce a written teacher research report on inquiries demonstrating competencies in research methodologies.

The syllabus/schedule are subject to change.

Student Learning Outcomes (SLO)

This course has been designed to provide instruction on the models of instruction and teaching and learning theories. The following are general instructional objectives for this course: 1. To examine action research and its implications for improving educational practice. 2. To understand qualitative and quantitative methodologies through teacher research experiences. 3. To explore how research inquiries within the field of curriculum and instruction may powerfully improve educational practice.

COURSE REQUIREMENTS

Students will be expected to complete assigned readings, assimilate lecture material, and to participate in class discussions. The course material and activities will be delivered 100% in an online environment. The class learning experiences shall include:

1. Reviews of pertinent literature associated with curriculum and instruction and teacher research.
2. Interacting with peers through review processes.
3. Completing a teacher research written report and formal presentation.

GRADING/ASSESSMENTS

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

The assignments for the course are listed below, and specific instructions for each assignment are included in detail in D2L (see assignments for each week).

- Wonderings journal: 10%
- Research design (with annotated bibliography): 15%
- Data collection journal (observations, surveys, interviews): 20%
- Participation (discussions and interactive lecture notes): 15%
- Teacher research paper and presentation: 40% (includes first draft and peer review)

Prior to submitting the teacher research paper, each student must write and submit a first draft and then participate in a peer-review conference (either via chat or discussion board).

Additional information about assignments and learning experiences shall be provided on the first day of class.

The syllabus/schedule are subject to change.

Assignment Submission Policy: The instructor reserves the right to change course assignments, projects, and examinations throughout the semester. Each assignment/project must be completed and turned in by the due date given. **All assignments are due by 11:59pm on the date indicated on the calendar. All assignments are submitted electronically in the drop boxes on D2L. If technical difficulties arise during the submission of assignments, students may use the university computer labs (located in Commerce, Metroplex Mesquite Center, and other satellite locations), to remedy the problem.**

The instructor maintains a strict late work policy. **Late assignments shall be subject to letter grade reductions (usually half credit) or non-acceptance at the instructor's discretion. Students electing to withdraw from the course must contact the registrar by the university's official deadline for withdrawal.**

In the case of unexpected emergencies, students must provide written documentation regarding their missed assignments. The instructor reserves the right to deny make-up opportunities, especially in cases of negligence. It is expected that all course assignments/projects (inside and outside of class

and including examinations) will be completed at mastery level (as designated by the instructor). If (in the professional opinion of the instructor) an assignment/project is not satisfactorily completed, it may be returned to the student, and the student may be required to re-do the work until it is at mastery level. The instructor reserves the right to limit the number of times an assignment/project may be re-submitted and to establish a reasonable time frame for resubmissions. If any course assignment/project is not completed at a mastery level by the final resubmission deadline, the instructor reserves the right to assign the student a grade of "I" or "F" for the assignment and/or course--at the instructor's discretion.

Attendance Policy: As per University Policy A 13.02 effective September 1, 1996: Students are responsible for learning about and complying with the attendance policy stated in the catalog, Student's Guidebook, and/or faculty syllabus. The expectations for students enrolled in this course are that they will attend all class sessions, by actively participating in discussions and activities.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

The syllabus/schedule are subject to change.

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
