- Use supervision and consultation to guide professional judgement and behavior within the context of the field settings and during 1:1 supervision each week.
- Design and engage in effective self-care strategies to reduce the likelihood of compassion fatigue and burnout through recognized and acted upon strategies.

Competency 2: Engage in Diversity and Difference in Practice

Class assignments will be made; completions of the required assignments are considered when evaluating the student's progress.

The field liaison faculty assigns the final grade for the student in the field practicum. This grade is based on the recommendation of the field practicum instructor (the agency- based field instructor) as well as the direct observations of the faculty field liaison.

Each faculty field liaison member is expected to visit electronically with the student and the student's field practicum agency a minimum of two times during the semesters, or as needed on problematic issues.

All students enrolled in the field practicum are required to meet with the faculty field liaison and other students in a weekly field seminar meeting. The format of the seminars is left to the faculty field liaison, within the following guidelines:

- Field seminar course is scheduled to meet face to face during a scheduled time.

- The opportunity for students to raise and share questions regarding the field practicum, assignments, and expectations.
- The opportunity for students to share with other students their learning experience in the field practicum; to begin the practice of peer consultation on professional problem solving; and to offer support and input to fellow students.
- Offer each student a chance to orient peers to their agency, its location, purpose, and procedures.
- Offers a chance to familiarize students and faculty with the services and referral

- Processes of the field agency and resources available for unique aspects of a rural and/or urban environment.
- Offers the student and agency mutual exposure to facilitate identifying future employment interests and opportunities.

Course Engagement

Final Evaluation and Grade Depends on both Classroom attendance and Participation

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material. To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include, but are not limited to participation in live, synchronous virtual classes, attending a Face-to-Face course when appropriate, interacting with peers in posted discussions and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the instructor.

Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and *National Association of Social Workers' (NASW) Code of Ethics*.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offenses by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves in an ethical and professional manner. Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics* (located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website: <https://www.socialworkers.org>

University Code of Conduct located in the *Student Guidebook* at <http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website under Campus Life Documents

To become aware of university policies related to student academic and behavioral expectations for students refer to the Guidebook
