

EDCI 651: Curricular and Instructional Design

Fall 2022

Instructor: Sarah Guthery, Ph.D.

University Email Address: sarah.guthery@tamuc.edu

COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings:

Textbooks Required:

The Curriculum Studies Reader, 6th edition, (2017), edited by David Flinders, Stephen J. Thornton, published by Routledge.

Working On the Work: An Action Plan for Teachers, Principals, and Superintendents by Phillip C. Schlechty, published by Jossey-Bass.

Course Description

This course presents an opportunity for doctoral students to analyze and synthesize major topics of critical concern to the profession through a program of study and discussion of current literature and research. The focus of our study is to investigate alternative possibilities for curricular and instructional design in the schools and propose innovative strategies for instruction. The nucleus for our study this semester will be curricular and instructional design. Schlechty's WOW framework for designing instruction and ideas about how schools could become learning organizations is another exemplar of focus for the course. Goals for the course are to 1) examine current theories, research, and philosophical stances which addresses the organization of learning activities in relationship to the curriculum and instructional setting or context, 2) understand the myriad of contextual factors and diversities that affect the learner and learning environment, and 3) use this information as a vehicle for critical thinking, reasoning, and effective argument. This work is intended to assist doctoral level students in the development and extension of their independent data collecting, evaluating or analysis, and reporting skills.

Student Learning Outcomes

The learning outcomes are what you are able to do as a result of the activities, readings, and direct instruction that have occurred in this course. Assignments/activities designed to produce these outcomes are described in the assignments and

assessments portion of the syllabus.

The learner will be able to:

- Be an active and engaged participant in class and group discussions by analyzing, designing, and evaluating information within the texts, supplementary readings, and class activities.
- Compare and contrast different theories, research, and philosophical stances which address the organization of learning activities in relation to curriculum and instructional activities
- Identify and elaborate on, both verbally and in writing, the contextual factors and diversities that affect the learner and the learning environment.
- Demonstrate the ability to read and synthesize existing professional literature related to curriculum theory and instructional design; and, analyze and evaluate research designs and findings.
- Plan and carry out a curriculum design project related to his/her current work assignment and which demonstrates the integration of best practices based on new ideas learned through the class activities, readings, and discussions.
- Write a paper to describe the curriculum design project and to analyze it's success in leading to learning for the intended students as well as learning for your self as a designer of curriculum.
- Present to the class a formal oral report describing your project, accompanied by a visual representation of the project (documentation panel, power point presentation, etc.) as well as your reflective analysis.

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

System Maintenance

D2L runs monthly updates during the last week of the month, usually on Wednesday. The system should remain up during this time unless otherwise specified in an announcement. You may experience minimal impacts to performance and/or look and feel of the environment.

Interaction with Instructor Statement

The best way to communicate with the instructor is through e-mail. Please e-mail me at Martha.Foote@tamuc.edu. In most cases, I will respond within 24 hours.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Attendance is crucial and is a part of your attendance, participation, and reflection on learning grade. If you miss a class, your grade for that session will be reduced since attendance and participation for that session cannot be truly be made up. You can still write a reflection over your assigned readings and this will allow you to earn partial credit for this session's participation/reflection grade.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx).

<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: [Netiquette](http://www.albion.com/netiquette/corerules.html)
