Course Description

The Course. This is an introduction to the sociological study of populations, i.e., social demography. My definition of demography is the following: Demography is the scientific study of human populations – their size, composition, and distribution – and the changes in these factors as they occur through the three processes of fertility, mortality and migration.

Our course will focus in particular on the demography of the United States, China, and Texas.

The course outline (below) pretty much follows my above definition of demography. When you complete this course, you will be able to perceive, analyze and discuss at sophisticated levels the dynamics of human populations. You will be especially knowledgeable about the populations of the U.S., China and Texas. You will also be able to discuss with anyone the theme of our course, “Demography is Destiny.”

Few issues in the world are as important these days as population growth and change. This course will enable you to view population issues from the perspective of the social sciences.

Student Learning Outcomes (Should be measurable; observable; use action verbs)

1. Demonstrate understanding and mastery of the study of human populations.
Assessed through: assignments
2. Theory and Content: Students will be able to sufficiently synthesize theoretical knowledge in Sociology. Measured by: Exams/Assignments
3. Critical Thinking: Students will be able to think critically about complex major-related concepts/knowledge. Measured by: Assignments/Discussion Board
4. Communication: Students will be able to communicate, express, and discuss complex major-related concepts sufficiently. Measured by: Exams/Assignments/
5. Sociocultural and International Awareness: Students will show sufficient understanding of responsible citizenship, political issues, and gender relations.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Instructional Methods

Using the Learning Management System, Powerpoint, Microsoft Word, and Internet.

Instructional Methods

This course will be conducted entirely via the web. All components of this class are online. We will not meet any time as a class. This course is primarily administered through D2L. If you need help using D2L, please see the technology services staff for help.

Student Responsibilities or Tips for Success in the Course

.It will be very important that you all read regularly the syllabus and ALL Announcements

posted at the home page of this course very carefully and follow all instructions about course objectives, grading procedures, etc. Ignorance about details given in the course syllabus and various announcements posted on the D2L web site cannot be accepted as excuse in any manner. I urge that you FULLY understand course requirements and grading procedures. That will be the key to doing well in the course. Also, please feel free to ask me questions about the course requirements through e-mails as needed.

2. This is an online course. Read instructions given under each week carefully.
3. All of your exams will be based on your books.
4. You can e-mail me whenever you have challenges or questions, particularly those that you don't want to share with your class mates.

Please specify the following in your e-mail: your full name and the course # you are enrolled in so that I check your record before responding to your need or question. You can also get an appointment to see me before and after each class or through an e-mail to me.

Read all announcements posted at the Home Page of the course and read all e-mails sent by me at your My Leo account in the D2L. If you have problem with your email system, please contact the Instructional Technology office. Do follow university deadlines in schedules given at the university's website and in the undergraduate catalog.

The syllabus/schedule are subject to change.

GRADING

Final grades in this course will be based on the following scale:

Total points corresponding to the final letter grades

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

The syllabus/schedule are subject to change.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor. I prefer communication via email. I rarely answer my office phone and am much more likely to respond to email. I will respond to email within 24 to 48 hours, between normal business hours of 8am to 5pm. Please be sure that when you email me, you use a proper greeting (Dr. Farris, Professor Farris, Instructor Farris), an email body, and an appropriate closing. You should never send an email with just an attachment and no email body. Be sure you have an appropriate and informative subject line and include the name and section of the course you are enrolled in. If you have read this far, please send me via email, a photo of a Unicorn. The people to do this within the first two weeks of class will get 5 extra credit points. See the attached page for some email expectations that would serve you well in all future communication with any professors or potential employers.

I will try to get assignments and exams graded and handed back in a timely manner. Should you have any questions/comments/concerns about your grades, then you can speak with me regarding your grades. If you are unable to reach a satisfactory conclusion with me, then you can speak to the department head.
