COURSE DESCRIPTION

Catalogue Description of the Course

COUN 528. Introduction to Group Dynamics and Procedures. Three Semester Hours. A study of group development, dynamics, and theories in relation to group counseling. Leadership styles, techniques and roles are explored, and ethical issues related to group interventions are discussed. Prerequisite: COUN 510 or consent of instructor.

General Course Information

As one of the core courses in the TAMU-Commerce Counseling Program, this course should be taken early in the student's program, but not first. The course includes studies that provide both theoretical and experiential understandings of group purpose, development, dynamics, counseling theories, group counseling methods and skills, and other group approaches. A grade of "B" or higher must be earned in COUN 501, 510, 528, and 516 for admission to candidacy status (or its equivalent for those seeking school counselor certification only), which is required before practicum (COUN 551).

Student Learning Outcomes (SLOs):

Measurement 1 (Knowledge):

I. Journal Entries (10 total journals). Students will use journal entries to explore personal group

The syllabus/schedule are subject to change.

counseling experiences and compare and contrast their personal process with material learned from lectures and readings.

II. Group Paper. In this paper, students will demonstrate their understanding of group dynamics and processes, including therapeutic impact factors, developing group cohesion, and ethically and culturally relevant strategies.

Measurement 2 (Skills):

I. Group Paper. Students will develop a culturally and ethically competent counseling group guided by their chosen counseling theory. This process will include a description of the group development, logistical considerations, and group session plans and goals.

*All SLOs address the respective CACREP Standards evident in the syllabus.

TExES Competencies Related to this Course (*TExES is the state examination required for school counselor certification.*)

Competency 001 (Human Development). The school counselor understands processes of human development and applies this knowledge to provide a developmental guidance program, including counseling services, that meets the needs of all students.

Competency 002 (Student Diversity). The school counselor understands human diversity and applies this knowledge to ensure that the developmental guidance and counseling program is responsive to all students.

Competency 006 (Counseling). The school counselor understands how to provide effective counseling services to individuals and small groups.

Competency 010 (Professionalism). The school counselor understands and complies with ethical, legal, and professional standards relevant to the profession.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this class, you will utilize the Learning Management System (LMS) entitled D2L for portions of instructional and learning methods and submitting assignments. You will need to utilize other technologies such as Microsoft Word, PowerPoint, etc. If you have issues with this system, it is your responsibility to contact the help desk immediately.

Instructional Methods

This course consists of lecture, discussion, experiential, reading and writing assignments, guided practice and role-plays, in-class activities, and other experiential activities- course is web enhanced. Self-reflection, self-evaluation, and offering and receiving feedback are also important instructional methods in this course.

In addition to other requirements, this course involves an experiential component of at least 10 hours designed as training for group membership and leadership. The group experiences are not designed to substitute for therapy.

Client Role

You will be in a client role and in a counselor role in different role-plays and activities in this course. These roles are essential and mandatory to your learning, demonstration, and assessment of basic counseling skills. If you are not prepared to engage in these roles, you are recommended to drop this course, as it will negatively influence your grade. What you share in these role-plays (or real-plays) is entirely up to you and your comfort level. As such, all students are held to the highest privacy and confidentiality standards and must abide by the current ACA code of ethics. You have the right and personal responsibility to share only as deeply as you want. At the same time, if you find yourself not wishing to engage in these exercises, you may prefer to drop the course.

Small Group Experience (10 clock hours group participation)

Students will gain experience as group members through participation in 10 clock hours of departmentally approved experiential small group activity during one academic term.

The syllabus/schedule are subject to change.

You will also facilitate a counseling group in classroom role-play situations. You are to meet with your co-leader and plan your session. You will conduct a counseling group in classroom role-play situations. You are to have enough exercises/ techniques to process a 60-minute group. The group is to have time for an opening, an exercise, processing the exercise, and termination. You will have to plan your time carefully. A handout that summarizes the content of the group is required. Please print enough copies to distribute to classmates and the course instructor. A debriefing will follow each group session for the leaders. The debriefing is to take no longer than 15 minutes.

Group leaders and group members will undertake every reasonable assurance of confidentiality. The group experiences are not designed to substitute for therapy.

The Focus of the Small Groups

The purpose of this course is to teach you about the functioning of groups. The bias of the instructor is that YOU are the most important component in the group process -- not merely you as a technician. Thus, the focus of the course is on how you bring yourself as a person into your small groups. The purpose of these small group activity is not to provide group therapy. However, your interactions in group will hopefully be real, based upon real concerns, and the group will hopefully be therapeutic. Thus, you are expected to participate in a personal way with a focus on sharing your thoughts and feelings as it pertains to what it is like for you to be a part of your experiential group. You are expected to give feedback to others and also to listen to and consider feedback you receive from others. The focus is not so much on resolving your personal problems. Rather, the focus will be more on here-and-now issues as they emerge within the context of the small groups and exploration of any of the personal topics you bring into your group. Hopefully, this class will be therapeutic -- a catalyst for your growth and a path for increasing your awareness of yourself in a group situation. You are **not** expected to disclose your deepest personal concerns, yet you are expected to deal with your personal reactions to what is taking place in the here-and-now context of the unfolding of the group. It is our expectation that members will engage in risk-taking as a way of expanding personal boundaries and that each participant will take active steps to create a safe climate of support.

Each of you is expected to focus on those personal areas that have the most meaning to you, both personally and professionally. You will be asked to talk about yourself in personal ways and explore real issues that are of concern to you, yet it is up to you to decide what personal topics you want to examine.

Confidentiality and Ethics

In this course, you are entering an experience that involves a fair amount of role-playing and practice interviewing. Naturally, in the course of discussion, it is possible for a student colleague to say something personally important and confidential. It is your duty to maintain confidentiality. Confidentiality is extremely important to the integrity of this course, enrolling in this course carries with it the responsibility to maintain confidentiality. Confidentiality cannot be guaranteed in any situation, but we are collectively accountable to maintain a safe, trusting environment throughout the course including experiential activities, and in-class conversations.

The syllabus/schedule are subject to change.

While it can be compelling to share personal information about class members with others, all students are bound by the ACA ethical code of confidentiality with respect to any material shared by other members of the class. The disclosure of personal information to anyone outside this class would be considered unethical and you will face consequences for disclosing it to non-class members. Please explore any concerns you have about confidentiality during class time, after class, or via private communication with the instructor.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, then these students will not receive the instructor's endorsement to continue with the program. (ACA Ethical Standards)

Student Responsibilities or Tips for Success in the Course

As a student in this course, you are responsible for the active learning process. Expectations of this course include the following:

1. You are expected to display professionalism at all times. Be respectful of your professor and peers. Be open to feedback, as you will receive this throughout the program.
2. Prepare for classes. Complete any and all readings prior to class time.
3. Complete all assignments by the deadline.
4. Adhere to the university student code of conduct.
5. Participate. During face-to-face classes, you are expected to actively participate in all activities and discussion. In the online format, you are expected to participate in all online discussions/activities. This is crucial to your learning.
6. All writing assignments must be done according to APA 6th edition.
7. Regularly check your University email. My suggestion is to check this at least once a day as your instructors and others from the department and University may contact you.
8. Begin your readings ASAP. Sometimes it may take more than one attempt to digest the material.
9. Deadlines are the last possible moment something is due—not the first moment to start. Work ahead. I realize this may not always be possible; however, when you can, do so.
10. Be open to the process. This degree takes time, work, effort, and growth.

Assignments/Assessments

****Note.** All assignments are to be submitted in D2L

1. Class Participation & Attendance (30 points)

Due to the nature of this class, attendance and participation are essential. Participation is credited to all activities related to this course. Please be aware that being consistently late to class can also constitute as an absence, particularly when a pattern of lateness emerges without justification.

The syllabus/schedule are subject to change.

Note: The quality of your participation *as a group member and as a group facilitator* in the small experiential groups, either in the demonstration groups or in the weekend supervision groups, is *not* included as a factor in grading. Although you are clearly expected to participate actively in the experiential training groups as a member, you are not graded on this component, nor are you graded on your skills in group leading. The following criteria will be used to determine participation & attendance points:

Class Participation & Attendance Rubric

3 – *Exceeds Expectations* (27-30 points)

Proactive participation: leading, originating, informing, challenging contributions that reflect in-depth study, thought, and analysis of the topic under consideration. This does not mean dominating discussion or self-disclosure inappropriate to the circumstances. Full attendance in the 10-hour small group experience. No more than one absence/no evident pattern of lateness

2 – *Meets Expectations* (24 – 26 points)

Reactive participation: supportive, follow-up contributions that are relevant and of value, but rely on the leadership and study of others, or reflect opinion/personal self-disclosure rather than study, contemplation, synthesis, and evaluation. Full attendance in the 10-hour small group experience. Two or less absences/no evident pattern of lateness

1 – *Does Not Meet Expectations* (0-25 points)

Passive participation: present, awake, alert, attentive, but not actively involved or invested; Or Uninvolved: absent, present but not attentive, sleeping, texting/surfing, irrelevant contributions. Absence or lateness on one or more of the 10-hour small group experience. More than two absences/pattern of lateness evident

2. Group Paper & Presentation (100 points)

Students will demonstrate the ability to apply knowledge of principles of group dynamics and processes in a **25-page group paper**. In this paper, you will demonstrate the ability to apply knowledge of principles of group dynamics and processes in writing. The object of the paper is to propose a counseling group you might like to conduct in Practicum or Internship. Minimum length is 25-pages, typed and double-spaced using APA 7th edition standards and yes, a title page and a reference page (use a minimum of ten empirical sources) are included but does not count towards your page count total. The paper will include: (a) literature review on the group topic; (b) discussion of theoretical orientation; (c) group process and development; (d) therapeutic factors; (e) group logistics; (f) group formation; (g) 8-10 session plan for a counseling group in a school or agency setting; (h) ethically and culturally relevant strategies; and (i) appendices containing group activities and resources. This assignment meets CACREP standards 2.F.6.a, 2.F.6.b, 2.F.6.c, 2.F.6.d, 2.F.6.e, 2.F.6.f, and 2.F.6.g.

The syllabus/schedule are subject to change.

The paper will include references from **at least ten journal articles**, in addition to texts. In addition to citing and synthesizing information from the related literature, you should specify the form and content of each group session, stating your objectives for each. Include your selection procedure and screening techniques. Identify the session(s) when individual education plans will be identified for each member, and the opportunities for subsequent follow-up on each member's progress.

Your paper should address a *group counseling* application, not a group guidance or group psychotherapy situation. It would be practical to identify a group you might actually lead in your practicum or internship field placement. *Do not* choose a suicide prevention group for your first attempt. Also avoid groups composed of all the children teachers are most happy to have absent. These "at-risk" groups of students are worthy of counseling, but frequently involve mislabeling or dual diagnoses. An example of a group paper is available in D2L. Please recognize the example does not exactly align with all the expectations of the assignment. Hence, that is why it is just an example. See Appendix A for outline. See rubric below.

The group paper will be presented to the class at the end of the semester. The purpose of the presentation is to demonstrate your knowledge of group processes and application in a presentation format. Students will have 20 minutes to present their group curriculum to the class.

3. Journals (10 journals, 3 points for each journal; 30 points in total)

Students will demonstrate understanding of group dynamics, group process components, leader skills, and ability to self-reflect as a group member, through completion of a structured **weekly journal assignment**. **The journal assignment coincides with group participation in a small experiential group.** Each week (10 total) you will turn in a 2-3-page journal on the previous week's group session class and one journal about anticipating the group's beginning. See Appendix B for outline. See rubric below. CACREP standard 2.F.6.h is met through the completion of the ten journals.

Weekly Journal Rubric

	1 – Does Not Meet Expectation (0 – 2.3 points)	2 – Meets Expectation (2.4 - 2.6 points)	3 – Exceeds Expectations (2.7 - 3 points)
Weekly Journal (3 points)	Journal is not complete, not written in a clear manner OR post is missing critical components of the journal OR is discussed in an illogical/inconsistent manner. Journal has several grammatical/APA errors; not consistent with graduate level work	Journal presents most elements of the question OR all elements discussed in a brief manner. Journal is evident of graduate level work with some grammatical/APA errors	Journal presents all elements of the question(s) discussed thoroughly and clearly. Journal is evident of graduate level work with few to no grammatical/APA errors.

GRADING

Final grades in this course will be based on the following scale:

90%-100%	A
80%-89%	B
70%-79%	C
60%-69%	D
< 59%	F

Assignment/Assessment

Point Value

The syllabus/schedule are subject to change.

Class Participation and Attendance	30
Journals (10 total)	30
Group Paper	100

Total points possible = 160. Your Final Grade is determined adding the point values earned from each assignment and then dividing by 170. The resulting value is multiplied by 100 to yield a percentage. For example: $(150 [\text{points earned}] / 160) \times 100 = 93.75\%$

Assignments are due on the day noted in the syllabus. Unless noted otherwise, all assignments are due at the beginning of the class period (i.e., 4:29pm). Late assignments will have 10% deduction per day late from the final score.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
