COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this class, you will utilize the Learning Management System (LMS) entitled D2L for portions of instructional and learning methods, submitting assignments, participating in online discussions, and completing quizzes. You will also need to download the Zoom application to your personal computer or smart phone in order to access office hours and other virtual meetings. To complete assignments, you will need to utilize other technologies such as Microsoft Word, PowerPoint, etc. If you have issues with this system, it is your responsibility to contact the help desk immediately.

Instructional Methods

This course consists of lecture and didactic learning methods, small group discussions, and in-class assignments, coupled with experiential learning and practical application. Supervised

The syllabus/schedule are subject to change.

application at approved field sites is integral to this course. When we are not meeting face-to-face, you will be expected to participate and complete all online tasks via D2L. In addition to this, small lecture, discussion, activities, and workshops may be utilized during this course.

Confidentiality and Ethics

In this course, as in all clinical experiences, the importance of adhering to ethical practice is **paramount**, and confidentiality is one component of ethical practice to which you must adhere. It is your duty to maintain the confidentiality of the clients discussed in this course (yours *and* your classmates) as well as any personal information shared about class members.

Confidentiality cannot be guaranteed in any situation, but we are collectively accountable to maintain a safe, trusting environment throughout the course, including during clinical supervision, experiential activities, and in-class conversations. The disclosure of personal information to anyone outside this class would be considered unethical and you *will* face consequences for disclosing to non-class members. Please explore any concerns you have about confidentiality during class time, after class, or via private communication with the instructor.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, **then these students will not receive the instructor's endorsement to continue with the program** (ACA Ethical Standards).

CSCE Statement

The Counseling Program is obligated by professional ethics (see ACA Code of Ethics, 2014) and University procedure to assess students as to their potential for meeting the expectations of the professional counseling field. The competencies outlined in this document (CSCE) are specific to professional counseling and are in addition to academic requirements. The Department of Counseling may suspend from the Counseling program any students judged incapable of meeting these expectations. Procedures regarding potential dismissal are outlined in the Program's *Retention/Dismissal Procedure*.

The CSCE may be used by any faculty member with any student enrolled in a Counseling course to provide that student with feedback regarding their potential for meeting the expectations of the professional counseling field and the Department. Completion of a CSCE is required in the following courses: COUN 516, COUN 548, COUN 551, COUN 552, COUN 620, and COUN 660. **Each use of the CSCE must be placed in the student's Department file along with any remediation plan developed by the faculty in conference with the student.**

Student Responsibilities and Tips for Success in the Course

As a student in this course, you are responsible for being active in your learning process. Expectations of this course include the following:

1. You are expected to display professionalism at all times. Be respectful of your professor and peers. Be open to feedback, as you will receive this throughout the program.

The syllabus/schedule are subject to change.

2. Prepare for classes. Complete any and all readings prior to class time.
3. Complete all assignments by the deadline.
4. Adhere to the university's Student Code of Conduct.
5. Participate. During face-to-face classes, you are expected to actively participate in all activities and discussion. In the online format, you are expected to participate in all online discussions/activities. This is crucial to your learning.
6. All writing assignments must be done according to APA 7th edition.
7. Regularly check your University email. My suggestion is to check this at least once a day as your instructors and others from the department and University may contact you.
8. Begin your readings ASAP. Sometimes it may take more than one attempt to digest the material.
9. Deadlines are the last possible moment something is due—not the first moment to start. Work ahead. I realize this may not always be possible; however, when you can, do so.
10. Be open to the process. This degree takes time, work, effort, and growth.

INTERNSHIP CLINICAL HOUR REQUIREMENTS

1. A minimum total of 600 (for both Internship I and II) clock-hour total for supervised experience must include a minimum of 240 (120 for Internship I and 120 for Internship II) hours of direct service work with clientele appropriate to the community, school, or student affairs program emphasis area.
2. On-campus class meetings will be arranged by the instructor of record to meet the instructional needs of the section to which the student is assigned. A schedule of these meeting times will be published by the instructor of record. Individual supervision sessions will occur at the discretion of the instructor of record.
3. Weekly interaction with an average of one hour per week of individual and/or triadic supervision, throughout the internship (usually performed by the on-site supervisor).
4. An average of 1.5 hours per week of group supervision provided on a regular schedule throughout the internship, usually performed by a program faculty member; a total of 24 hours of group supervision will be completed before the end of the semester.
5. The student will negotiate a Field Experience Contract with the on-site supervisor. This contract constitutes an agreement between the student, field supervisor and instructor of record and specifies the student's activities, hours, and supervision arrangements.
6. The student will submit a Weekly Activity Log to the instructor that will document a cumulative record of hours including:
 1. direct on-site contact hours
 2. on-site individual supervision
 3. on-site group supervision with other interns
 4. on-campus group supervision
 5. indirect hours on site (excluding supervision)

The syllabus/schedule are subject to change.

The activity log will also include brief descriptions of the student's on-site activities and reactions. This log will be submitted through D2L each week.

7. The student will submit taped counseling sessions for use in supervision which demonstrate the student's interaction with clientele appropriate to the student's field setting. The number and specific requirements for these tapes will be published by the instructor of record.
8. The student is expected to perform activities that a regularly-employed staff member in the setting would be expected to perform. A **regularly employed staff member** is defined as a person occupying the professional role to which the student is aspiring.
9. The student will complete an evaluation of field site experiences during the last week of the semester. These evaluations will be filed with the department's Coordinator for Field Placement.
10. The student will maintain professional liability insurance throughout internship.
Helpful Tip: ACA Student Memberships come with free liability insurance for counseling students through HPSO.

COUSE ASSIGNMENTS/ASSESSMENTS

1. **Class Attendance and Participation/Discussion (40 points).** Regular attendance and active participation in internship class is paramount to your success in this course; not only because open, honest, and active engagement is necessary for your clinical development, but also because you are required a minimum of **24 hours of group supervision** during each semester of internship in order to comply with CACREP standards and to meet the hourly requirements for this class.

- 2. Video Recording and Session Analysis (80 points/tape – 160 points total):** Each student is required to meet weekly with clients at their field site to practice their counseling skills (see Appendix B) and record video sessions (no audio recordings will be accepted). From these weekly sessions, students are to submit **two (2) video recorded counseling sessions** (a minimum of 40 minutes in length) for grading and may be required to bring additional recordings to group supervision. Along your two video recordings, you will also complete a **Session Analysis** to submit with each of these sessions (see **Appendix A**). Content of the session analysis must correspond to the recorded video tape played in class. Please submit the session analysis the day the assignment is due. *These taped sessions must be from the current semester with a current signed consent from the client or parent/guardian if client is a minor.*

Counseling skills including process, conceptualization, personalization, and professionalism are the focus of internship and should be evidenced in your tapes and session analyses. See **Appendix B** for more detail with regard to counseling skills.

Your second recording (**Tape 2**) will also require a **case conceptualization** that utilizes the structure found in your Sperry and Sperry (2020) text.

For instance, one School Counseling CACREP standard on page 6 of this syllabus relates to college readiness. By contrast, one of the clinical mental health standards relates to treatment planning. All students will be given **four (4) reading assignments** (articles and other resources) that address **program-specific standards**. Upon finishing each reading, you will write a 3-to-4 page reflection paper (APA 7th edition style and formatting required) summarizing the important concepts in the reading and writing a reflection that includes **a)** your personal reaction to the material and **b)** its applicability to your clinical placement and practice.

6. Counseling Student Competency Evaluation (CSCE). The Counseling Program is obligated by professional ethics (ACA Code of Ethics, 2014) and University procedure to assess students as to their potential for meeting the expectations of *professional practice* in the counseling field. The competencies outlined in this document (CSCE) are specific to professional counseling and are *in addition to* academic requirements. The Counseling Program may suspend from the program any students judged incapable of meeting these expectations. Procedures regarding potential dismissal are outlined in the Program’s *Retention/Dismissal Procedure*.

The CSCE may be used by any faculty member with any student enrolled in a Counseling course to provide that student with feedback regarding their potential for meeting the expectations of the professional counseling field and the Department. Completion of a CSCE is required in the following courses: COUN 551, COUN 552, COUN 620, and COUN 660 (i.e., Clinical Supervision, Advanced Practicum, Advanced Internship, Advanced Supervision, Advanced Teaching). The course instructor in COUN 516 and COUN 548 may choose to implement the CSCE at his/her discretion. Each use of the CSCE must be placed in the student’s Department file along with any remediation plan developed by the faculty in conference with the student.

The Counseling Program has elected to use the CSCE to monitor student’s progress in professional practice. As a requirement in this course, a final CSCE evaluation will be completed by the course instructor, in consultation with the student, to assess your professionalism, general competency, social and emotional maturity, integrity and ethical conduct, and clinical competency. Please note that the instructor of the course may choose to administer the CSCE at different time intervals throughout the semester (e.g., initial, mid) at his/her discretion. The CSCE can yield an overall average composite score or an average subscale score for each domain. The Department utilizes both overall average composite score and average subscale scores to monitor students’ professional practice. See rubric below.

CSCE Rubric

		1 – Does Not Meet Expectations	2 – Meets Expectations	3 – Exceeds Expectations

7. Internship Site Supervisor’s Evaluation of Trainee (CMHC, Appendix C; SC, Appendix D). The Counseling Program has elected to assess and incorporate site supervisors’ feedback in the evaluation of students’ performance in *professional practice*. Completion of a site supervisor’s evaluation of a trainee is required in COUN 552. Each use of the site supervisor’s evaluation of trainee must be placed in the student’s Department file.

As a requirement in this course, a final site supervisor evaluation of trainee will be completed *by the site supervisor in consultation with the student* to evaluate the intern’s *professional practice* across various domains. Please note that the instructor of the course may require a site supervisor’s evaluation of trainees at different time intervals throughout the semester (e.g. midway through the course) at his or her discretion. The site supervisor’s evaluation of trainee can yield an overall average composite score or an average subscale score for each domain. The Department utilizes both overall average composite scores and average subscale scores to monitor student’s *professional practice*.

The syllabus/schedule are subject to change.

NOTE FOR INSTRUCTORS: Please be aware that the site supervisor’s evaluation of trainee is program-specific (CMHC or School Counseling) and exist in two different versions (Practicum or Internship). LATE ASSIGNMENTS

It is imperative that you turn all work in at the designated time as noted in the syllabus and/or on D2L. Late assignments will NOT be accepted in clinical courses (551, 552) except in extenuating circumstances; please communicate with me as soon as possible upon learning of such a circumstance so that I can help you determine what your best course of action moving forward may be.

GRADING

Although this is a Satisfactory/Unsatisfactory (Pass/Fail) class, you will receive a numerical grade. To achieve a **Satisfactory/Pass** in this course, you must earn a minimal final grade of **80%**.

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

The syllabus/schedule are subject to change.

D = 60%-69%
F = 59% or Below

Assignment/Assessment	Point Value
Attendance and Class Participation/Discussion	40
Video Recordings/Session Analysis (2 @ 80 points/each)	160
Case Conceptualization Paper (submitted w/ VR/SA #2)	30
Reflection Papers (4 @ 10 points/each)	40
Theory of Change Paper (Intern II ONLY)	Satisfactory/Unsatisfactory
Clinical Hour Requirement	Satisfactory/Unsatisfactory
KAA: CSCE	-
KAC & KAD: Site Supervisor's Evaluation	-

Total Points Possible = 270

Helpful Hint: Your final grade can be calculated by adding the point values earned for each assignment and then dividing by 270. The resulting value, when multiplied by 100, will yield your percentage score in this course. (e.g., $220/270 = .814 \times 100 = 81.4\%$)

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: <https://www.britannica.com/topic/netiquette>

TAMUC Attendance

Students in this course are expected to attend class and be active participants in class activities. Participation is required, and those who actively participate in class almost always receive higher grades than those who do not. Attendance is required. Students are expected to demonstrate consistent attendance. For face-to-face classes, attendance is defined as being present at the start of class, being in class during class time, and staying until the end of class. Students cannot miss more than 10% of the course meetings. This policy allows for two (2) absences. Any absence missed after two (2) absences will result in loss of credit for the course. Students who anticipate frequently missing class, arriving late, or leaving early should consider dropping the class.

Students are expected to have completed assigned readings prior to the class period in which they will be discussed. You are also strongly encouraged to ask questions at any point during the class, as discussion generally allows students to learn better (and tends to make the class a lot more fun, too).

If you must miss class on a night when you are due to take an examination or give a presentation, you must provide your instructor with university approved documentation reflecting the purpose of your absence. This documentation will be used as a tool to evaluate whether your instructor can provide an exception to the absence policy (e.g., hospital admittance/discharge paperwork, funeral announcements, etc.).

For more information about the attendance policy please visit the [Attendance](#) webpage and [Procedure 13.99.99.R0.01](#).

Students with Disabilities - ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Partial Example

Note: Your analysis will be considerably longer than the brief excerpts given below.

Demographics: BC is a 12-year-old Hispanic male who is in 7th grade. He is the youngest of four children and lives with both biological parents.

Presenting Problem: BC was referred by his teacher. He is currently failing math and language arts and has been referred to the principal for disruptive behavior.

Areas of Concern: BC appears to have low self-esteem and few friends. He does not appear to have support for his schoolwork at home. His parents do not speak English well and are not very involved with his school responsibilities.

Summary of Session Content: Identify client and counselor goals. What was the objective of the session? Include here what were the major themes/topics explored?

Interventions/Techniques (along with rationale): The counselor used reflective listening, open questions, paraphrasing, clarifying, and summarizing. Goal setting was also utilized. A homework assignment was given. Client agreed to “act as if” the next time he is embarrassed to go to tutoring for math.

Theoretical Approach(es) Used This Session: At this stage you will incorporate your use of theory into the process and include in your analysis your intention and rationale for doing what you did in session. You will document this with a(n) excerpt(s) from your session.

Session Analysis: Evaluation of your performance and the session.

- Transcription of **5 consecutive interactions** with **self-critique** of your responses.
 - What was the rationale for your response?
 - How effective was the timing and the delivery of your response?
 - Was the client’s response what you anticipated?
 - How, if at all, would you have liked to have changed your response

Plans for Next Session

The syllabus/schedule are subject to change.

Appendix B: Counseling Skills to be Demonstrated in Internship

Process Skills: These include skills learned in Basic Skills (516) and refer to counselor behaviors that can be observed either through two-way mirrors, video or audio recording. These skills enhance the process of counseling and will be evaluated in their execution rather than their choice. Process skills are observable counselor' attitudes and skills. Process skills range from paraphrasing to more complex skills such as attempts to empathizing, confronting discrepancies, responding to nonverbal behavior, pacing a session, and using silence.

Conceptual Skills: Most of the counselor's covert behaviors are found here. Conceptual skills reflect deliberate thinking and case analysis. There are two kinds of thinking in this area: conceptualization during the session and between the sessions. Kinds of behaviors that represent these skills include:

- Understanding what the client is saying
- Identifying themes in the client messages
- Choosing strategies appropriate to client goals
- Recognizing even subtle improvement by the client

Conceptualization skills involve understanding patterns and themes with each client *and* being able to distinguish between important and unimportant client statements and processes.

Personalization Skills: These include both easily observable and subtle behaviors. Because counseling is a very personal activity, these skills will indicate how well the student has adjusted to the role of helper. Examples of these might include:

- Comfort with the responsibility of being a counselor
- Being able to separate one's own issues from those of the client
- Being able to handle a range of personal emotions
- Being able to accept constructive criticism

Professional Skills: These include ethical behaviors both within, and outside, counseling sessions. Examples include, but are not restricted to, the following:

- Completing paperwork on time
- Safeguarding confidentiality
- Behaving professionally in field placement
- Dressing appropriately for counseling contacts
- Not being defensive with an accusing or angry client
- Being able to handle a range of personal emotions
- Being able to accept constructive critique

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, they will NOT receive the instructor's endorsement to continue with the program *or* pass the course.

The syllabus/schedule are subject to change.
