GRADING

Total points corresponding to the final letter grades

A = 451- 500 Points

B = 401- 450 Points

C = 351- 400 Points

D = 301- 350 Points

F = 300 & > Points

In class activities & participation	125
Video Modeling Project	125
Assistive Technology Case Study	125
Student Presentation	125
Total	500

- **Class Participation (125 points)**: Activities and discussions in class will be utilized to promote understanding and application of course content. In class activities & discussions will include such things as article responses, IRIS modules to complete, and other activities.
- **Video Modeling Project (125 points)**: Students will identify a skill to be taught via video modeling to a particular population. They will write a sample IEP objective, create a task analysis, and record a video. Students will create a data sheet and take data while having a peer watch their video.
- **Student Presentations (125 points)**: Students will select a special

education topic they wish to explore further. Instructor must approve the topic selection. Students will prepare an electronic presentation on their topic using PPT, Prezi, a Google Site, etc. The presentation should include an overview of the topic and resources. Students must include at least **one** peer-reviewed sources, cited in APA 7th edition (this does not mean Google, but rather using the Library search engine to find journal articles; some reputable journals are listed below). The idea is that, upon completion, you will have an electronic resource file.

- **Assistive Technology Case Study (125 points):** As their final project, students will complete a study of AT videos, documents for including AT in the IEP, and applying the SETT framework to select appropriate AT. Students will work through a training case study that is provided and then apply the knowledge to a different case study.
