Course Meeting Times: Online

Required Text: Moss, D. **A Concise Guide to Macro Economics: What Mangers, Executives, and Students Need to Know**, 2nd edition

NOTE: Additional readings will be provided by the instructor

Course Description:

This course analyzes the use of various instruments of monetary and fiscal policy and their effects on output, employment, prices, and international economic variables. Data sources and indicators of aggregate economic activity are emphasized.

Course Objectives

- Students will demonstrate a familiarity with U.S. national economic performance objectives, be able to access and employ relevant data pertaining to economic performance, and understand the costs associated with the failure to achieve stated goals.
- Students will illustrate an understanding of the nature and function of monetary and fiscal policy tools available for the pursuit of macroeconomic objectives as well as limitations of same.
- Students will assess the role of macroeconomic theory and data in the policy formulation and implementation process.

Instructional Methods

- Class participation & discussions
- Lecture w/ PowerPoint Slides
- Assigned readings
- Student presentations / teaching
- Research papers w/ presentations
- Group work w/ presentations
- Video
- Exam

Grading: Each student's grade will be comprised of two exams (15% each), a short paper presentation (25%), Microsoft Excel training certification (15%), and a data analysis presentation (30%).

Grading Scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

Late Assignment Policy:

Late assignments will accrue a penalty of 10 points per day the assignment is late. An assignment is considered one day late if it is submitted past the identified due date/time. It is considered two days late if it is submitted any more than 24 hours past the identified due date/time, and so forth. This includes weekends! Once an assignment is more than 10 days late, it will become a zero and will not be accepted for credit.

If a student wants an extension for an assignment, this must be received no less than 48 hours before the assigned due date/time. Extensions are not guaranteed, and are at the discretion of the instructor. Extensions may include a late penalty.

Projects (20%):

For all presentations listed below, students should embed audio into the PowerPoint file and submit it to the instructor by the assigned deadline.

Short Paper w/Presentation: *Week 2*

Students will submit a one page summary on a current macroeconomic policy issue of their choosing (80%). It is important to stress the importance of the issue to a stated managerial group, the challenges / opportunities involved, and plan for further action. The student will also present this, with the presentation lasting no more than 5 minutes (20%).

Data Communication: *Week 5*

Students will choose a current macroeconomic policy topic and provide an initial list of possible academic sources (at least 5) to the instructor for approval. Each student will be responsible for researching current scholarly sources as a necessary step in the process, providing real-world data communication experience. Using these sources, each student should provide an analysis that provides useful insight into the topic for managerial decision-making. The presentation itself should last no longer than 20 minutes.

Online Commitment Expectations:

Participants are expected to log on to the course 4-5 days per week to complete the required assignments, though it is highly recommended that you log on every day. Try to let 48 hours be your maximum absence from the course. Doing so will not only greatly enhance your chances for success in the course, but also the learning experience for everyone involved.

If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let your professor know as early as possible.

Netiquette

The discussion boards are created to provide an opportunity for students to actively engage in meaningful conversation on a particular topic or issue. You are encouraged to provide your honest viewpoint, but be respectful of the views of your classmates.

Do's

1. Do use correct grammar and spelling.
2. Do read the prompt, reflect on what you would like to say, and review what you've written before posting!
3. Do respect the privacy, beliefs, and opinions of your classmates.
4. Do challenge each other's ideas but not each other personally.
5. Do remember to treat others as you would want to be treated.
6. Do stick to the discussion prompt at hand when posting to a forum.
7. Do use humor and sarcasm carefully. Students cannot see your facial expressions or hear any voice inflections.

Don'ts

1. Don't type in ALL CAPS. This is regarded as shouting.
2. Don't rant or rage. This is not the place to vent your anger or start a fight.
3. Don't make inappropriate comments. Objectionable, sexist, or racist language will not be tolerated.

In the discussion forums you will post assignments and discuss your work with others in the class or in your groups. These are public forums, so whatever is posted can be seen by everyone in the course, including the instructors. If you want to send a private message, use individual email. The Class Lounge discussion forum is a public space for conversation with your classmates on any topic or question.

General Comments:

1. Turn off your cell phones before coming to class. This is a classroom environment. It is disruptive to the class and disrespectful to the instructor to have a cell phone ring in the middle of class. Please double check before you come to class.
2. Texting, the use of a computer for purposes not related to class, reading of newspapers, sleeping, or any other distraction will not be tolerated.
3. Each student is expected to check his/her **university** e-mail (e.g. rt42@tamcu.edu) frequently for course announcements. E-mails **will not** be sent to personal e-mail addresses (e.g. goldlion@yahoo.com). This is to ensure privacy.
4. You will most likely need a calculator for this course. A standard calculator should be sufficient. A graphing calculator is not necessary.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

Desktop Support

Browser	Supported Browser Version(s)	Maintenance Browser Version(s)
Microsoft® Edge	Latest	N/A
Microsoft® Internet Explorer®	N/A	11
Mozilla® Firefox®	Latest, ESR	N/A
Google® Chrome™	Latest	N/A

Microsoft Word is the standard word processing software, Microsoft Excel is the standard spreadsheet software, and Microsoft PowerPoint is the standard presentation software. Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft Office, you can check with the bookstore to see if they have any student copies.

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.
