Course Description

This course utilizes the concepts of empowerment-based practice and the strengths perspective for macro work with client systems such as organizations and communities. The relationships between rural and urban organizations and communities and the intersection of the two and at-risk populations are infused throughout the course.

Prerequisites:

Students must have completed all MSW foundation curriculum requirements; been admitted to the MSW program; and be in good standing in the MSW program.

Relationship to Other Courses:

Student Learning Outcomes (Should be measurable; observable; use action verbs)

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Listed below are the competencies and associated knowledge, skills, values and/or cognitive and affective processes that comprise the expected outcomes for this course.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this class you will utilize the Learning Management Systems (LMS) D2L for instructional and learning opportunities, submitting your assignments, participating in online synchronous and asynchronous discussions, accessing resources, and completing quizzes/tests. Additionally, knowledge and skills in using Microsoft Word PowerPoint and Outlook Email, if you have any issues with using the various systems or software, it is your responsibility to contact support services and to notify the instructor of the problem.

Instructional Methods

This course will be delivered via synchronous and asynchronous sessions via D2L and will consist of live class sessions, pre-recorded lectures, group engagement activities, various assignments with some including experiential learning and practical application of the content areas. In addition, small lectures, discussion activities and workshops may be utilized to provide instruction during this course.

Student Responsibilities or Tips for Success in the Course

As a student in this course, you are responsible to engage in active learning and reaching out to the instructor if there are problems or challenges that is interfering in optimal learning. Communication is key when engaged in a fully online, virtual environment.

Expectations for success include:

- Always demonstrate professional behavior, including demonstrating respect for instructor and peers; being open to feedback and guidance throughout this class and in the program.
- Adhered to the School of Social Work and University student code of conduct, along with NASW Code of Ethics.
- Begin reading the assigned text and supplemental readings as soon as possible, with a focus on completing all readings prior to engagement with instructor or peers.
- 4. Prepare to engage in live class sessions, discussions, and other activities so you can be a contributor as well as receiver of knowledge and skills.
- 5. Actively participate in engagement activities which will include live virtual class sessions, online discussions, and interactive learning opportunities -as this if vital for learning and success in both this course and the program.
- 6. Work ahead when possible, completing assignments ahead of due date so you are prepared to submit on the due date.

- 7. Sign into the D2L course multiple times during the week to access updated announcements or posted resources.
- 8. Check your university email daily. This is the official method of communication by the university, department, and instructor.
- 9. Be open and focused on the "process" and not the "product" as earning this degree requires time, effort, work and ultimately growth in knowledge, skills, abilities along with personal and professional attributes.

GRADING

Community Intervention Paper	100 points
2. Grass Roots Community Bldg.	50 points
3. Petition for Change	50 points

Total Points Possible 200 points

Final grades in this course will be based on the following scale:

A = 90%-100% of total points

B = 80% - 89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Specifics for grading will have to be individualized and entered here

Assessments

Community Intervention and Community Presentation (75 points) & Community Presentation (25 points): 100 points

This assignment involves writing a 6–8-page paper that proposes a community intervention to a significant LOCAL community problem. This paper should reflect the content from all applicable assigned readings. The paper must be correctly referenced using American Psychological Association (APA) guidelines. Special attention should be given to the **correct style of referencing.** Papers need to be original, typed, with clear and lucid analyses, and excellent grammar.

Please note that this is a graduate level course, and the expectations are considerably higher than those at an undergraduate level. This research paper is intended to demonstrate your ability to **apply theories of community practice and macro-level**

model of intervention to a real problem situation. The paper should be written in a formal, scholarly format.

In addition to reflected problem analysis, planned intervention and proposed change efforts consider issues related to economics, social policies, political influences, and involvement of various levels of systems (individuals, families, groups, organizations, and communities). Papers will be graded on quality of analysis, creativity, incorporation of theories and knowledge, and quality of writing. Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to proposed intervention.

Your selected problem should target **one specific community** or **regional area** and the content related to community assessment and resources should be specific to that community.

Presentation – You will be expected to present your identified problem, assessment data, and proposed solution to a body of LOCAL POLICY DECISION-MAKERS (such as city council, county commissioners, local school board, Council of Governments, public hearing on a particular issue, etc.). All communities have decision-making bodies that are open to public comment and input. However, you will need to find out the parameters of such input AHEAD OF TIME. Sometimes there is a time limit and advance request for permission to speak. Failure to present before an appropriate group will result in point deductions. You will need to include documentation (including a contact person) that can verify your presentation.

Petition for Change – 50 point

Students are to work with their assigned group and decide on a social or community problem and strategy to enhance social justice and quality of life. Students are to write a petition to be submitted through Change Communications (www.change.org). Each group should submit ONE draft of the petition. Groups are encouraged to get approval from their instructor on their selection of problem. One member of the group shall then submit the petition online after receiving instructor approval incorporating any changes recommended/required by the instructor. This assignment is intended to have 2 purposes: one is to require students to use group skills and the other is to allow students to actively engage in community change and impact a social problem using an electronic venue. Points awarded for this assignment will include instructor's assessment of "group process", meaningful and constructive contributions, group member feedback directly to the instructor AND number of votes that petition generates in the week following the posting (use your Facebook or other means to encourage others to sign your petition!)

Grass Roots Community Building Initiative – 50 points

Students are to choose a state or national grass roots organization or initiative. Students are to contact the founder, executive director, or other key staff to interview them about the organization. It should be a grassroots organization, NOT A SOCIAL SERVICE AGENCY as described in Ch. 8. Students are encouraged to check with instructor to ensure appropriate organization. Students are to include the role and relationship of clients in the operations of the program. Students are to write a 4-5 page summary of the information learned (paraphrase the input from the interview), and relate what they learned about the organization to content in Ch. 7. DO NOT LIFT INFORMATION FROM THE WEBSITE TO INCLUDE EXPLICITLY IN PAPER. The bulk of the content should be from the individual interviewed.

School of Social Work and Council on Social Work Education Specific Policies

Course Engagement

<u>Final Evaluation and Grade Depends on both Classroom attendance and Participation</u> Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material. To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include, but are not limited to participation in live, synchronous virtual classes, attending a Face-to-Face course when appropriate, interacting with peers in posted discussions and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the instructor.

Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

Student Conduct

Students preparing to become professional social workers must adhere to the *University*Code of Conduct, Department Code of Conduct and National Association of Social

Workers' (NASW) Code of Ethics.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offences by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves in an ethical and professional manner. Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics* (located at https://www.socialworkers.org/pubs/code/code.asp) on the NASW website: https://www.socialworkers.org

University Code of Conduct located in the Student Guidebook at http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf (pp 34- 66). On the University Website under Campus Life Documents

To become aware of university policies related to student academic and behavioral expectations for students refer to the Guidebook
