Student Responsibilities or Tips for Success in the Course

Strong reading and writing skills:

- Most of the material in the online environment will come from your textbooks, discussions, lectures, and videos; therefore, strong reading, writing and critical thinking skills are very important for success in an online course.
- Success in this class will come from independent reading of textbook chapters as well as other assigned material.

Self-motivated and independent learner:

- While online courses can offer more flexibility in scheduling, they require more self-discipline and independence than on-campus courses.

The syllabus/schedule are subject to change.

- In the online environment, you have to be able to start and to work on tasks on your own, without someone keeping you focused, and you have to be self-disciplined in order to follow the class schedule and meet deadlines.

Time commitment:

- Online classes take as much time as regular on-campus classes. You need to set aside sufficient time for study. Plan to spend at least as much time working on the assignments and studying as you would with a traditional course. You should plan to spend approximately 10 hours study time per week to accomplish your readings and various module assignments.
 - As the semester progresses, more time may be required to complete the components of the final/major written assignment(s).
 - I encourage you to be proactive and budget your time wisely. Spend the first few days of each module reviewing what the workload entails and budget your time wisely. Some students may require more time. You know your study habits and abilities, so encourage you to be wise so all work is completed by the due date.
- **Late Work Policy for select individual assignments (except quizzes/exams/final project)**
 - 0-24 hours late: 50% credit possible
 - 24+ hours late: No credit possible
- **01W students:** Even though you may not have to "be" in class on some specific day and time, you still have to follow the course schedule provided. Remember that online classes are not independent study courses; you are still required to "show up" and participate actively (e.g. regularly logging into the course website, actively participating and turning in assignments on time.

For assignments, it is highly recommended that students do not wait until the last minute to complete assignments, discussion boards or exams. Communication is important! If you have questions, concerns, are struggling with understanding material, will be missing class, etc. please notify the instructor.

GRADING

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

Total points corresponding to the final letter grades

A = 900– 1000 points B= 800-899 C= 700-799 D= 600-699 F= 599 &
> Points

Details on assignments grading on D2L

The syllabus/schedule are subject to change.

- It is your responsibility to regularly monitor your points in the D2LGrade Center. If you notice a discrepancy, contact me immediately. Do not wait until the end of the semester to question your grades.
- **If you drop the class, and you are not passing the course, the grade assigned will be “Dropped Failing”.**

Just because you are logged in to the class, does not mean you are participating. It means active involvement in class discussions, assignments, quizzes and active participation in group activities.
2. An “excused absence” is defined as a documented university approved activity. The instructor reserves the right to change the content or format of all make-up work. The student is responsible for making up missed work. If the absence is one of the reasons listed below, you will be able to make up the work. To reserve this right, you **MUST** provide written documentation on the day of your return to class (a copy that I can keep). Please notify me ahead of time if you know you will be absent.
