Student Learning Outcomes:

1. The student will articulate how curriculum is designed, developed, and managed through course discussions and assignments.
2. The student will outline the principals' role in designing curriculum for effective instruction through course discussions and assignments.

The syllabus/schedule are subject to change.

3. The student will conduct a brief needs assessment and data collection of campus curriculum and curriculum processes.
4. The student will conduct a curriculum unit review using the Understanding by Design (UbD) model.
5. The student will develop a curriculum plan incorporating three curriculum goals over a three-year period.

COURSE REQUIREMENTS

The instructor will create an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students will actively participate in the class. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement. Learning will be achieved through textbooks and other assigned readings, projects, and class interaction.

Assignments:

Each student is expected to submit course assignments through D2L and complete all reading and written assignments on time, and actively engage in the class by closely connecting class topics and discussions to the textbook and other readings. Participate in endeavors with the goal of contributing meaningfully and implementing higher order thinking skills.

Final Pillar Project (3 Products = 380 points)

This course will include a project to demonstrate mastery and application of learning. The project is designed to be a real-world experience to assist you as a school leader/practitioner by using data to create an improvement plan. Projects vary in nature and are individualized to the student's current professional situation. Each project will have its own set of parameters for completion. Some of your Module assignments will assist you in developing this final course project. Detailed instructions are provided within the course.

The final exam will be an application component comprised of 3 steps.

- Step 1: Data Collection/Needs Assessment PowerPoint (120 pts)
- Step 2: Curriculum Review (100 pts)
- Step 3: Developing a Curriculum Plan in narrative form (160 pts)

Step 1: Data Collection/Needs Assessment (120 pts) Conduct a brief needs assessment and data collection of your school's current curriculum and curriculum processes. Create a brief PowerPoint of your findings

Step 2: Curriculum Unit Review (100 points)

Conduct a curriculum unit review using the Understanding by Design (UbD) model.

Step 3: Developing a Curriculum Plan (160 points)

Based on the data collected in Step 1 and 2, you will identify 2 goals for the curriculum plan. Using a narrative format, write a paper with organized into the following sections:
