Course Description

This is a course on Community-Based Supervision and Correctional programs. It will examine its place in the CJ system, its policies & procedures, management & supervision styles, methods of selection into programs, and evaluative research on their effectiveness. We will compare what is learned about the structure and trends in community corrections at the national level to that of programs and agencies in Texas and the local area.

Student Learning Objectives & Outcomes

- 1) To understand the range of possible sentencing outcomes and the key factors in that decision-making process;
- 2) To learn about programs that impose restrictions on convicted offenders while maintaining them in the community;
- 3) To learn about the systemic efforts to divert accused offenders from the criminal justice system prior to prosecution.
- 4) to become knowledgeable of efforts designed to smooth the transition of inmates from prison to the community through a continuum of options.

COURSE REQUIREMENTS & GRADING

Exams

- There are four (4) in-class tests based on readings, lectures, and other relevant materials.
- Each test is worth 17.5 percent of the final grade.

Tests are a combination of multiple choice and short answer. Bring the green Scantron form (882-E) and a Blue Book to test dates (items available at the bookstore). Make-up exams are allowed only for verifiable emergencies and you must contact me prior to the regularly scheduled test date to be eligible to take one. Make up exams are essay-format.

Term Paper(s)

The term paper should be 4 to 5 pages in length plus cover sheet and references. Use information from local agencies and the library to conduct research on a community corrections topic approved by the instructor. Papers should focus on any of the special problems, populations, conditions of supervision, or programs covered or mentioned in class (e.g. Juvenile, or Female caseloads, Intensive Supervision, Drug Courts, Electronic Monitoring, Fines and Restitution, Gang Unit/Sex Offender/Mental Impairment Caseloads, or other unique conditions of community supervision). See *Paper Options* on D2L for details. The term paper is worth 20 percent of the final grade.

Attendance and participation = 10 Percent of the final grade for the course.

******Term Papers are Due in class on Friday 12/8/23. (Last Regular Class Meeting)******

The final exam (Test #3) is an in-class, non-comprehensive test based on readings, lectures, and other relevant materials presented in the final part of the term.

To summarize, course requirements are weighted as follows:

In-Class Exams	70%
Term Paper	20%
Attendance and Participation	<u>10%</u>
TOTAL	100%

Final grades are determined as follows:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

Minimal Technical Skills Needed:

1. Ability to use Microsoft Word

2. Ability to navigate the D2L Learning System
3. Ability to navigate TAMUC Library Resources
4. Ability to navigate the internet

Instructional Methods

This is a traditional, in-person lecture course. Exams are based on lecture slides, class discussion, guest speakers, tours, and media items in the class. 1-page study guides for exams are provided no less than one week before the date of the exam. All slides are made available in clearly labeled modules in D2L, organized into four (4) major sections of the course. Material on the exam is emphasized in the slides and in lecture.

Student Responsibilities and Tips for Success in the Course

1. Read this syllabus, all handouts, slides, and extra readings on D2L with great care and pay attention to their details. Mark test dates and other important notes in your personal calendar. Revisit the syllabus and handouts periodically and ask questions if you have them.
2. Students should attend each class or as often as possible.
3. Before each class, students should review slides and skim sections of the textbook chapter(s) scheduled for coverage in class per the weekly schedule (below).
4. To prepare for exams, students should use lecture slides to locate all items appearing on the study guide. Use the textbook's index to locate test items and skim those sections. Also review the notes you take during class.
5. To do well on the Term Paper requirement, students should select a topic as early in the term as possible and run it by the instructor for approval if the student is unsure about its suitability. Students should not wait until the end of the term to begin writing papers. Your instructor is always willing to provide feedback on early drafts. Finally, stick closely to guidelines on the Term Paper handout on D2L for best results, grade-wise & heed the info and warnings in item 6. below.
6. Avail yourself of resources at the TAMUC Writing Center for proofreading and advice: <http://www.tamuc.edu/academics/colleges/humanitiessocialsciencesarts/departments/literatureLanguages/writingCenter/default.aspx> As freshmen or sophomores, you probably haven't written many term papers in your life. As such, please take your paper drafts to the writing center for help. **Do not plagiarize or purchase term papers off of the internet to present as your own work. This never ends well for the student or the instructor, as filing paperwork for academic misconduct with the university takes time out of everyone's busy schedule. Please see the info on Academic Dishonesty on p. 5 below.**
