Course Description: Advanced Auditing course is an intensive study of professional conduct, auditing standards, auditor's liability, reports, and internal auditing. This course focuses on advanced auditing principles as related to publicly traded organizations, the general public, and the audit firm in general. For each class, the presentation and class discussion will incorporate the related accounting principle, the appropriate auditing standards and applicable professional standards. The importance of ethical accounting practices will be emphasized throughout the course.

Auditing and Forensic Accounting Certificate

The graduate certificate in Auditing and Forensic Accounting will equip students to gain certifications offered by the Institute of Internal Auditors (IIA) and the Association of Certified Fraud Examiners (ACFE). The twelve semester hours (4 courses) of coursework is eligible to meet requirements for the Master of Science in Accounting (MSA) program should a student

wish to pursue it. ACCT 527 & ACCT 562 are in the core curriculum and the remaining courses would meet electives for the MSA.
