

Course Description/Rationale: This course (AG 508) provides a review of research and resources related to school and university-based gardening programs for academic enrichment, nature awareness, nutrition improvement, and other aspects of garden-based learning. This course will compare techniques used in justifying, funding, designing, implementing, evaluating, and sustaining selected programs.

This course meets for 8 weeks of the semester beginning January 29 and ending on March 31, 2024. The content is presented in an accelerated format to include two weeks of content per weekly module.

Course Objectives/Student Learning Outcomes

Upon successful completion of this course the student will be able to:

1. Identify and select curriculum resources for school gardening.
2. Integrate core academic subjects into school garden projects.
3. Apply national core academic subject standards to school gardening programs.
4. Synthesize relevant research articles into a literature review.
5. Analyze grant applications and proposals for school gardening programs.
6. Compare techniques for evaluating school gardening programs.
7. Critically review school gardening websites and/or local examples.
8. Develop budgets and work plans for school gardening projects.
9. Discuss the opportunities and challenges of using volunteers in school gardening.
10. Promote school gardening projects to appropriate audiences.

Grade Determination

This course is a web-based, but you may be required to engage with individuals and places off the Internet for some class activities. The course is organized into eight instructional modules or units with each consisting of an overview; lecture notes and review of related websites, documents, journal articles, and/or videos; online discussions on relevant topics/issues. Additionally, some modules will include projects, reflective essays, or experiential activities that extend beyond the virtual boundaries of the eCollege format. **Each student will also complete a 4-5 page term paper that synthesizes concepts and findings from 4-6 relevant journal articles or related publications.** Details of these and other assignments will be provided online in D2L.

<i>Assessment Activity</i>	<i>Possible Points</i>
Online discussions for each module (8@30)	240
Term Paper/Lit Review	100
<i>Innovative Idea Poster</i> on a Specific School Garden	100
<u>Final Project/Essay (in lieu of exam)</u>	<u>100</u>
Total possible points	540

$$\text{Your grade } \underline{\quad} \% = \frac{\text{Your Total Points Earned}}{\text{Total Possible Points}}$$

COVID-19 Conditions and Response

During this COVID pandemic, you may face periods of isolation or restriction of movement. Since this is an online course, it is designed for your completion from anywhere that internet access exists. If you do not have internet access in your current residence, you need to identify how you will access your assignments if you cannot leave. This may include the use of a smart phone or other digital device that can offer connectivity. Most assignments can be completed offline, but the internet may be required for research, online discussions, and the uploading of assignments/projects. If you have a medical reason for an assignment to be delayed, I will excuse that. Internet access, or the lack of it, is not a medical excuse.

The professor reserves the right to modify this syllabus during the semester, if needed. The professor also reserves the right to extend credit for alternative assignments, projects, or presentations.
