The applied instructor selects literature and plans lessons in a logical sequence specifically designed to prepare each student to meet the stated student learning outcomes. Thus, the literature and skills addressed in each lesson will vary according to each student's experience in performance repertoire and technical strengths and weaknesses. In practice, after assessing a student's skills and needs in the early lessons, the applied instructor often provides a more detailed overview of the semester's activities; however, this overview is specific to that student and the sequential activities are contingent upon that student's continued progress.
