COURSE INFORMATION

Textbook(s) Required

Perrin, D. Athletic Taping and Bracing, 4th edition. Human Kinetics. ISBN: 9781450413527

Supplemental Text: Prentice, William. Principles of Athletic Training: A Guide to Evidence-Based Clinical Practice. 17th ed. McGraw-Hill. 2020.

Course Description

Students will learn taping, wrapping, and padding techniques used to support and prevent athletic injuries. Techniques for making and applying special preventative pads and splints as well as fitting of protective equipment will be taught. Course fees and lab fees are listed in the current course schedule. Prerequisites: HHPK 213 or instructor approval.

Student Learning Outcomes

1. Select, fit, and/or apply appropriate standard protective equipment, preventative taping & wrapping procedures, splints, and braces.
2. Obtain, interpret, and make decisions regarding environmental data.
3. Obtain medical histories and assess clinical signs associated with common injuries/illnesses.
4. Utilize special tests and instruments to assess vital signs.
5. Recognize, evaluate, and provide care during medical emergencies.
6. Provide appropriate care for open wounds.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students must have working knowledge of and know how to use the MyLeo Online: D2L Brightspace learning management system, and Microsoft Word/Excel/PowerPoint. Students must utilize their

University assigned email (Leo mail) for all course communications. All email communication from the instructor will be sent to the student's Leo mail.

Student Responsibilities or Tips for Success in the Course

Students can expect to do well in this course when they attend class on-time, complete all assignments/quizzes/exams, participate in class discussions, and seek assistance when they do not understand course material. Students should also utilize the course resources provided through D2L, such as, course lecture notes, assignments, and course information. Some assignments, quizzes, and exams throughout this course will require using D2L. It is the students responsibly to have internet access, check this site frequently, and become familiar with how it works.

Grading

Each assignment will be worth a pre-determined amount of points. Upon the completion of the course, grades will be calculated by adding up the total number of points each student has earned and dividing it by the total amount of points available in the course. This will produce a percentage of points earned (Ex. Student earned 850 points out a possible 1000 in the course: $850/1000 = 85\%$ "B"). Grades will be assigned based upon the percentages below.

Lab Assignments & Quizzes: 300 pts	A = 90-100%
Taping & Wrapping Techniques: 300 pts	B = 80-89%
Total Points = 600	C = 70-79%
	D = 60-69%
	F = 0-50

Grading Scale:

Students are expected to earn points toward their final grade during the course of the semester with the assignments and tests that are scheduled. Extra Credit Assignments WILL NOT be given at the end of the semester. All students are graded based on the exact same criteria and no exceptions will be made for individual assignments, tests, or final point values.

Students will receive back all graded assignments in a timely manner (typically within 1 week of the due date). Students are encouraged to keep all graded assignments as well as keep up with their grades throughout the semester. Any questions or concerns about assignments/grades should be brought to the instructor's attention immediately (i.e. Do not wait until the end of the semester)

ASSESSMENTS

Lab Assignments

Assignments will be given during the course as appropriate. More information will be given when assignments are made. Due dates and point values for each assignment will be given when the assignment is made and will be posted on D2L. All assignments are due at the beginning of the assigned class time to receive full credit; this includes assignments that are due when a student misses class. See Missed Work & Late Work section for more information.

Taping & Wrapping Techniques

Over the course of the semester, students will be evaluated on each special test and must score 100% on each one. Each taping & wrapping technique will be discussed and demonstrated in lab class. Students will then practice the skills during lab time or their clinical experience. When the student feels they have 'mastered' the

The syllabus/schedule are subject to change.

skill, they will seek a peer evaluation, followed by a Preceptor evaluation. Students must earn a passing score on each taping & wrapping technique while being evaluated by a Preceptor in order to successfully complete this course. Students not scoring 100% on a skill will have to re-test on the skill.

COURSE SPECIFIC PROCEDURES/POLICIES

Attendance

Class attendance is **required**. Excused absences include university approved absences or those that I receive appropriate notification of (i.e. sudden/serious illness, death to immediate family member, etc.). It is the student's responsibility to notify the instructor ahead of time if they are going to miss class due to an excused absence and make arrangements for all materials and assignments that will be missed on that day. In the case of excused absences due to unavoidable or emergency situations, the student must promptly notify the instructor via phone call or email explaining the circumstances. Prompt notification is required to have an absence excused; additionally, written documentation may be required to have the absence excused. If a student misses a class, excused or unexcused, the student is responsible for obtaining all information presented and turning in all assignments by the due date. Additionally, arriving to class more than 15 minutes late or leaving class early will result in an unexcused absence, unless the instructor receives prior notification. Remember: *Poor planning on your part is not an emergency on my part.* Students with unexcused absences beyond nine (9) must meet with the instructor to determine if they need to drop the course.

Late Work

All assignments are due as assigned and must be turned in on or before the due date to receive full credit. This includes assignments that are due when you have an absence. Assignments turned in beyond class time on the due date will receive zero (0) points. It is the student's responsibility to be aware of assignment due dates as the dates are included on the course schedule and posted on D2L. Technical and computer problems associated with email and/or D2L is not a valid excuse for turning in an assignment late.

Required Attire

Due to the hands-on nature of this lab course, you will need to bring or wear a t-shirt and shorts for each class (work-out attire). If this becomes a problem, failure to come to lab dressed appropriately will be recorded as an absence.

TECHNOLOGY REQUIREMENTS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Browser Support:

https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

Access and Navigation

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

The syllabus/schedule are subject to change.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

Communication and Support

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

Interaction with Instructor Statement

Email is the best way to contact the instructor if you need assistance with any aspect of the course. Instructor will typically respond to emails within 24 hours (except on weekends). Students are also welcome to utilize instructor's office hours if they prefer a face to face conversation.

UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: [Netiquette http://www.albion.com/netiquette/corerules.html](http://www.albion.com/netiquette/corerules.html)

Students are expected to prepare for, participate in, and attend each scheduled class. Failure to do so may/will lead to a decline in the student's overall grade. In order to succeed in this class, students should read each chapter prior to beginning that section in the course. Forming study groups to prepare for class and tests will also greatly benefit students throughout the semester. Students are also expected to behave appropriately in class and avoid being a distraction to their fellow students and the instructor. Appropriate behavior involves paying attention, actively participating, and following instructions. Cell phones (including text messaging), music, inappropriate language/gestures, and any other behavior determined to be a distraction will not be tolerated. Students who are considered to be a disturbance in class will be asked to leave.

The syllabus/schedule are subject to change.
