University Email Address:	anil.chourasia@tamuc.edu
Preferred Form of Communication:	email
Communication Response Time:	24 hours (except during weekends)

COURSE INFORMATION

Textbook(s) Required	Introduction to the Thermodynamic of Materials D. R. Gaskell and D. E. Laughlin, 6th Edition, 2018 ISBN: 9781498757003 Publisher: CRC Press
----------------------	--

Optional Texts and/or Materials will be provided in the class

Course Description

Atomic Physics: Three semester hours

A study of special relativity, photoelectricity, atomic structure and spectra, X-rays, and the wave nature of matter.

The course focuses on quantization of charge, light, and energy, the photoelectric effect, Compton effect, Atomic spectra, Rutherford scattering, elementary quantum mechanics, and relativity

Prerequisites: Lvl U PHYS 2426 Min Grade C and Lvl U MATH 314 Min Grade C or Lvl U MATH 2415 Min Grade C

The syllabus/schedule are subject to change.

Student Learning Outcomes

1. You will be able to determine relationship between internal energy, heat transfer, and the work done
2. You will be able to analyze system consisting of ideal gas
3. You will be able to extract parameters associated with reversible and irreversible processes
4. You will be able to analyze closed systems for the processes carried out under different conditions
5. You will be able to apply the first, the second, and the third law of thermodynamics to various systems

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Understanding of electric and magnetic fields and their interaction with charges

Instructional Methods

Class room lecture

Student Responsibilities or Tips for Success in the Course

Students who do well in this course share most of the following common habits:

1. Being honest with yourself regarding the homework
2. Conference with the instructor
3. Arriving a couple of minutes early for class and not leaving until the class is dismissed
4. Not using phones, tablets, or computer during the class
5. Checking MyLeo often for announcements and assignments
6. Completing and turning in all assignments on time
7. Seeking help and advice early in the semester
8. Taking responsibility for their own grade

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

The syllabus/schedule are subject to change.

D = 60%-69%

F = 59% or Below

The grade will be determined from homework, two exams, and the final exam as outlined below:

- Homework and attendance 20 %
(Late Homework penalty 10% each class day)
- Two Exams 25 % each
- Final exam (comprehensive) 30 %

Assessments

Please see the Grading section

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These

The syllabus/schedule are subject to change.

methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

Interaction with Instructor Statement

The graded homework, and the tests (except the finals) will be returned in due time to the students as a feedback for the course.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Missing an exam without first making arrangements for make-up with the instructor (excused absence cleared before the exam) will automatically consume the failing grade. Missing other class periods will result in penalties as described under the attendance section below.

Policy for the Test:

- (1) Do not use cell phone
- (2) Do not share calculator
- (3) No bathroom break allowed

Policy for the Final Test:

- (1) Max time allowed is 2½ hours from the scheduled start time
- (2) Do not use cell phone
- (3) Do not share calculator
- (4) Only one bathroom break, with permission, with a max time of 5 min. will be allowed

Any decision to curve the grade will be taken at the end of the semester

The syllabus/schedule are subject to change.

Five unexcused absences will automatically result in a failing grade

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

AI use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
