Course Description

Epidemiology is the study of the distribution and determinants of health and disease in different human populations and the application of methods to improve disease outcomes. As such, epidemiology is the basic science of public health. This course will introduce students in all fields of public health to the background, basic principles and methods of public health epidemiology investigation for both communicable and non-communicable diseases.

Student Learning Outcomes:

Upon completion of this course, students should be able to:

1. Apply the basic terminology and definitions of epidemiology
2. Calculate basic epidemiology measures of frequency and association
3. Identify and appropriately use key sources of data for epidemiologic purposes
4. Draw appropriate inferences from epidemiologic data
5. Evaluate the strengths and limitations of epidemiologic reports
6. Apply basic infectious and chronic disease methods and data
6. Identify common sources of error in epidemiologic research
7. Describe a public health problem in terms of magnitude, person, time, and place
8. Explain the importance of epidemiology for informing scientific, ethical, economic, and political discussion of health issues
9. Communicate epidemiologic information to lay and professional audiences

The syllabus/schedule are subject to change.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Using the learning management system, using Microsoft Word, PowerPoint, and Excel, using university email, and using Google Docs / Slides.

Instructional Methods

The course is organized by modules. Each module will be formatted similarly including chapter learning objectives, lecture and assignments and will be outlined in the syllabus schedule on D2L. The instructor has the right to modify the outline of the course.

Student Responsibilities or Tips for Success in the Course

Strong reading and writing skills:

- Most of the material in the online environment will come from your textbooks, discussions, lectures, and videos; therefore, strong reading, writing and critical thinking skills are very important for success in an online course.
- Success in this class will come from independent reading of textbook chapters as well as other assigned material.

Self-motivated and independent learner:

- While online courses can offer more flexibility in scheduling, they require more self-discipline and independence than on-campus courses.
- In the online environment, you have to be able to start and to work on tasks on your own, without someone keeping you focused, and you have to be self-disciplined in order to follow the class schedule and meet deadlines.

Time commitment:

- Online classes take as much time as regular on-campus classes. You need to set aside sufficient time for study. Plan to spend at least as much time working on the assignments and studying as you would with a traditional course. You should plan to spend approximately 10 hours study time per week to accomplish your readings and various module assignments.
 - As the semester progresses, more time may be required to complete the components of the final/major written assignment(s).
 - I encourage you to be proactive and budget your time wisely. Spend the first few days of each module reviewing what the workload entails and budget your time wisely. Some students may require more time. You know your study habits and abilities, so encourage you to be wise so all work is completed by the due date.
- Late Work Policy for select individual assignments (except quizzes/exams/final project)

The syllabus/schedule are subject to change.

- 0-24 hours late: 50% credit possible
- 24+ hours late: No credit possible
- **01W students:** Even though you may not have to "be" in class on some specific day and time, you still have to follow the course schedule provided. Remember that online classes are not independent study courses; you are still required to "show up" and participate actively (e.g. regularly logging into the course website, actively participating and turning in assignments on time).
- **81B students:** Bi-weekly lecture & check-in sessions are required. More details shared on D2L along with Zoom link (01W students are welcome to join these as we discuss the class content)

For assignments, it is highly recommended that students do not wait until the last minute to complete assignments, discussion boards or exams. Communication is important! If you have questions, concerns, are struggling with understanding material, will be missing class, etc. please notify the instructor.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Total points corresponding to the final letter grades

A = 900– 1000 points
Points

B= 800-899

C= 700-799

D= 600-699

F= 599 & >

Details on assignments grading on D2L

- It is your responsibility to regularly monitor your points in the D2LGrade Center. If you notice a discrepancy, contact me immediately. Do not wait until the end of the semester to question your grades.
- **If you drop the class, and you are not passing the course, the grade assigned will be "Dropped Failing".**

Assessments

ALL coursework/ assignments (unless otherwise stated) need to be written and formatted per APA Publication Manual (7th Ed).

The syllabus/schedule are subject to change.

The student will be responsible for obtaining all materials presented online and assigned readings from the textbook. All class assignments must be turned in online. No emailed work will be accepted. **Unless otherwise specified, all assignments are due ONLINE by 11:59pm on the specified due date.** No late work accepted for quizzes, examS and project group submissions.

See late work policy above for select assignments.

**Any Group Engagement must occur via a platform that allows for group work (Zoom & Google Docs). All members must attend group meetings and participate in accordance with the group contract. If no participation, (attending meetings, contributing to work etc), this will be used as an indication you are not actively participating, resulting in working alone and not getting credit on work that has been done thus far.*

See D2L for details on all course assignments.

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

The syllabus/schedule are subject to change.

Interaction with Instructor Statement

E-mail strategy: You are welcome to email your questions or concerns to me. There are, however, some caveats associated with email that you must remember:

1. A reasonable response time to emailed questions is 24 - 48 business hours.
2. Questions emailed on weekends may not receive a response until the work week begins.
3. As the instructor, I reserve the right to answer emailed questions regarding assignments, tests, discussion boards, etc., in a direct email/announcement post to everyone for the benefit of all students.
4. Please be courteous and professional in all of your interactions with fellow classmates and instructor.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

The course is organized by modules, each formatted very similarly with a 2 to 3 week duration (except for Module 5). Each module will include module learning objectives, printable power point slides, additional reading materials and module assignments. A tentative course schedule with due dates is listed at the bottom of the syllabus on D2L. You will be responsible for managing your time to complete readings, post your discussion boards, and written assignments. All assignments should be submitted in the respective assignment link.

Attendance:

- Time spent on coursework is at your leisure (except for due dates).
- You can work at your own pace (except that due dates are absolute).
- Due dates are when coursework **MUST** be completed. You can work ahead, but you cannot get behind.

What Should Students Do First? Students should begin by:

- Thoroughly reviewing the syllabus
- Obtain materials (textbooks)
- Familiarizing oneself with the course layout (watch welcome video)
- Introduce yourself in the Module 1 introduction discussion
- Review the major assignments information

The syllabus/schedule are subject to change.

How Should Students Proceed Each Week for Class Activities?

- The student will access and follow all course instructions found in the module content areas.
- The student will read associated module readings and listen to all online lectures provided in the Power Point section.
- The student will then complete all module assignments inclusive of discussion boards, written assignments and major project content.

Course Specific Policies

1. For 81B students, weekly remote attendance on scheduled day/time is **required**.
 - i. If you are unable to attend a class, please notify me through email.
 - ii. For 01W, attendance counts as logging in, completing work weekly.
 - iii. It will be very difficult for you to do well in this class if you miss submitting coursework. Please be aware that class participation goes beyond simply logging into this class. Just because you are logged in to the class, does not mean you are participating. It means active involvement in class discussions, assignments, quizzes and active participation in group activities.
2. For 81B students, while you are in class, I expect you to participate. That means you should a) actively prepare by reading the assigned materials, b) participate in discussion (ask and answer questions), c) bring your notes and textbook, d) bring your ideas, and e) come ready to engage
 - ✓ This class may have an “experiential learning” component that will require attendance and travel outside of class. For these activities/session, attendance is required as grade is contingent of participation. Those dates will be clearly outlined in the syllabus schedule.
3. An “excused absence” is defined as a documented university approved activity. The instructor reserves the right to change the content or format of all make-up work. The student is responsible for making up missed work. If the absence is one of the reasons listed below, you will be able to make up the work. To reserve this right, you **MUST** provide written documentation on the day of your return to class (a copy that I can keep). Please notify me ahead of time if you know you will be absent.
 - i. Participation in an activity appearing on the University’s authorized activity list.
 - ii. Death or major illness in a student’s immediate family.
 - iii. Illness of a dependent family member
 - v. Participation in legal proceedings or administrative procedures that require a student’s presence.
 - vi. Religious Holy Day (please let instructor know at the beginning of the semester so as to discuss alternative accommodations as appropriate)
 - vii. Illness that is too severe or contagious for the student to attend class (to be determined by Health Center or off campus physician).
 - viii. Required participation in military duty
4. Any student *missing a quiz or exam* without prior arrangement per the make-up policy will receive a *score of zero*.

The syllabus/schedule are subject to change.

5. You **MUST** be familiar with D2L; familiarize yourself with the online portion of the class.
6. You **MUST** check your e-mail regularly in case I need to communicate with you. I will not e-mail you junk, and I request that you do the same for me.
7. **NO PROFANITY**. No inappropriate or offensive language or gestures. No inappropriate or offensive clothing. This will not be tolerated and you will be asked to leave and it will be considered an unexcused absence for the day.

Make-up Work

Make-up of coursework will only be given in very rare circumstances: serious illness with a note from your physician, a death in your family with appropriate documentation, or if you have an officially excused absence while representing the university. If any of these situations occur you **MUST** email me **48 business hours prior to said excused absence**.

1. Make-ups will only be given if I have been notified at least 48 hours business hours prior to the end of the course week a particular assignment is due in order to verify your reason for missing coursework (rare circumstances and/or excused absences). All missed coursework not meeting the criteria for a make-up will be given a grade of 0.
2. No extra credit is given in the class

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures
