Course Description: Theory I is the second course in a four-semester sequence which examines notational, harmonic, and compositional practices of the Western art music tradition. This course focuses on the development of analytical and compositional skills, with particular emphasis on the music of the Common Practice Era (CPE)

Student Learning Outcomes:

Upon successful completion of this course, students will be able to accomplish the following in each category:

Melody

- Identify motives, phrases, and periodic structures in examples from the Common Practice Era
- Identify and utilize all types of standard non-chord tones

Harmony

- Construct and identify all standard cadence types
- Construct and identify secondary dominant chords
- Demonstrate, through composition and analysis, an understanding of diatonic sequences
- Demonstrate, through composition and analysis, an understanding common-practice functional harmony

Rhythm

- Demonstrate, through composition and analysis, an understanding of rhythmic notation and of all common meters

Composition

- Compose original works in chorale style and simple keyboard style

Course Requirements: There will be frequent homework assignments utilizing both analytical and compositional skills. Unless specified otherwise by the instructor, **all** work should be done in pencil. Homework is expected to be turned in on the date on which it is due in the D2L course shell. Late work will be penalized according to the Late Work Policy unless prior arrangements have been made with the instructor.

Often it may be helpful for students to work on homework assignments with a partner or in groups. When done correctly, this can serve as a proven method for success for students who may be struggling with a particular concept in class. *However, take care that the completed assignment reflects your own understanding of the material and is not merely a copy of a classmate or colleague's work.* Doing so will help to ensure that your efforts in the class are both fruitful (reflecting the very purpose of homework) and intellectually honest.

You are encouraged to utilize the Counterpoint Café program for tutoring throughout the semester and may be prompted to do so.

At minimum, three examinations will be given during the semester. Specific information as to exam content will be provided at least a week before the exam is administered. In addition, there will be occasional quizzes of varying scope and length, both announced and unannounced.

In addition to homework and exams, there will be a final project for which the student will compose a short original work for solo piano. Specific details as to length and content will be provided later in the semester.

Assessment:	Exams:	30%	
	Homework:	30%	
	InQuizitive:	20%	
	Final Project:	10%	
	Class Participation:	10%	
	A = 90-100	C = 70-79	F = 0-59
	B = 80-89	D = 60-69	

Attendance Policy: The University Catalog states, “Students are expected to be present for all class meetings of any course for which they are enrolled.” Sporadic attendance is a waste of your intellectual and financial resources. Unless they are the result of a medical or family emergency, excused absences (as defined by the Catalog) need to be arranged beforehand with the instructor; in the case of illness, the instructor may require a doctor's note. Each student is allowed up to three unexcused absences over the course of the semester. Additional unexcused absences may result in the lowering of the final grade and, in rare and extreme cases, the student being dropped from the course. Six absences will automatically result in the student failing the course.

Late Work Policy: In order to keep up in this course, and so that your work may be graded in a timely manner, it is essential that you turn assignments in on time. Therefore, while a grace period of 24 hours will generally be offered for homework assignments, after this time the earned grade will be lowered by ten grade points per subsequent day and may not be accepted for any credit after one week.

Technology Policy: The use cell phones and laptops for non-class purposes is prohibited during class time. During class, all cell phones should be turned off or silenced and put away from the desk. If a cell phone needs to be used for medical reasons or for an emergency, its use needs to be cleared with the instructor before class.

Laptops may be used to access course materials and complete classroom tasks; however, use of laptops for some reason not related to this class is not permitted. Unauthorized use of a cell phone or laptop during class will result in the student receiving a failing grade for that day's attendance.

Note Bene: The study of music theory is an essential and important component of the developing musician's education. Far from being just another “required course,” music theory forms the foundation of nearly all higher-ed courses in music. Theory is also a subject where the concepts are presented sequentially, each leading to the next. As such, **it is imperative that the student be proactive** if they are having issues with a particular topic. Do not wait in frustration; ask a question in class, seek me out before or after class, or e-mail me to set up a time to meet individually.
