COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings

Classical Mechanics, 3rd edition, Goldstein, Poole and Safko, Addison Wesley, ISBN-13: 978-0201657029

Course Description

In this course, we will learn how to formulate the laws of mechanics – which we originally learn as Newton's laws of motion – in ways that make them amenable to the solution of problems concerning classical bodies in different situations.

Student Learning Outcomes (Should be measurable; observable; use action verbs)

1. The student will learn how to formulate and solve the laws of mechanics in the Lagrangian and Hamiltonian forms
2. The student will be able to describe the general motion of particles which move under the action of a central field.
3. The students will be able to describe the motion of extended bodies

The syllabus/schedule are subject to change.

4. The students will be able to solve problems concerning the normal modes of various systems

COURSE REQUIREMENTS

Instructional Methods

Students will be expected to work through reading and problem sets independently. I will arrange office hours every week during which students can ask questions about the material.

Success in the class will be assessed through 6 problem sets, worth 1/6 of the total class grade each. The problem sets will be a combination of original problems and problems from the textbook.

GRADING

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

Weights of the assessments in the calculation of the final letter grade.

Problem sets	16.67% each
TOTAL	100%

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

AI use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

The syllabus/schedule are subject to change.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
