#### **COURSE DESCRIPTION AND STUDENT LEARNING OBJECTIVES**

This course is designed to provide graduate students with a guided project in music education as it relates to the instrumental ensemble. Through a project-based curriculum the students will be able to successfully complete a detailed project study based on the specific topics noted above.

The instructor will guide the project and in a logical sequence specifically designed to prepare the student to meet the stated student learning outcomes. Thus, the specific projects and skills addressed in the scope of the course will vary according to each student's experience level and technical strengths and weaknesses. In practice, after assessing a student's skills and needs in the early meetings, the instructor often provides a more detailed overview of the semester's activities; however, this overview is specific to that student and the sequential activities are contingent upon that student's continued progress.

Potential absences, other than those listed above, should be discussed directly with the conductor at the beginning of the semester or as early as possible. Final classification of absences will at the sole discretion of the instructor.

## **Grading:**
