TAC Rule §149.2001--Principal Standards 4-School Culture

Standard 4--School Culture. The principal is responsible for establishing and implementing a shared vision and culture of high expectations for all staff and students.

(A) Knowledge and skills.

- (i) Effective culture leaders:
 - (I) leverage school culture to drive improved outcomes and create high expectations.
 - (II) establish and implement a shared vision of high achievement for all students and use that vision as the foundation for key decisions and priorities for the school.
 - (III) establish and communicate consistent expectations for staff and students, providing supportive feedback to ensure a positive campus environment.
 - (IV) focus on students' social and emotional development and help students develop resiliency and self-advocacy skills; and
 - (V) treat families as key partners to support student learning, creating structures

for two-way communication and regular updates on student progress. Families and the community have regular opportunities to engage with the school and participate in school functions.

- (ii) In schools with influential culture leaders, staff believe in and are inspired by the school vision and have high expectations for all students. Staff are responsible for communicating the vision in their classrooms and implementing behavioral expectations throughout the building, not only in their own classrooms. Teachers regularly communicate with their students' families to provide updates on progress and actively work with families to support learning at home. Members of the broader community regularly engage with the school community.

COURSE OUTLINE AND EXPECTATIONS

DESIGN OF THE CLASS

This class is designed on constructivist principles. This means that the instructor creates an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students actively participate in the class by constructing their learning. As a graduate-level course, the instructor expects quality work from each student supported by adequate preparation and involvement.

CLASS PARTICIPATION

Given the constructivist design of the class, this course will be interactive. I expect that all students participate fully in all activities and assignments to maximize their learning experience. This web-based course will comprise several learning activities, including (but not limited to) small & large group discussions, student-led learning activities, lecture notes and clarification, reflection activities, individual learning activities, written papers, and reflective, integrative examinations. For this class to be exciting and beneficial, each student must have recorded weekly minutes in the D2L portal. The D2L reports these minutes to me. In certain circumstances, if a student is (inactive) for “0” recorded minutes, they are dropped from the course.

Students must be prepared to lead and/or enter into discussions, ask relevant questions, and share the results of their study and reflection. This means that each student should be (1) conscious of the class schedule and the requirements for each class (knowing what to be prepared for), (2) self-disciplined (spending time to be fully prepared), and (3) eager to share with your classmates (participating actively by sharing what you have prepared).

ONLINE CLASS ENVIRONMENT

Please practice courtesy, respect the opinions of others, use positive language and effort, encourage your classmates, respect confidentiality, and support each other's learning.

<u>Assignment/Assessment</u>	<u>% of Grade</u>

Please Note: While students may receive numerical grades for various assignments listed in the syllabus based on the criteria provided by the instructor and which contribute to an overall grade average represented in the breakdown listed above, these grades are to provide feedback to students and to guide the instructor in assessing student work. However, the final grade awarded for the course will be at the instructor's sole discretion. It will be based on several factors, including but not limited to the rubric provided (see the Course Grade Rubric attached). Points will be deducted for the submission of late work.
