Course Description

EDAD 718 *Doctoral Dissertation* (3 -12 semester hours). A candidate must present a dissertation acceptable to the student's dissertation committee and the Dean for Graduate Studies and Research. The research must be about a problem in the area of specialization. To be acceptable, the dissertation must give evidence that the candidate has pursued a program of research, which reveals superior academic competence and a significant contribution to the knowledge base.

Student Learning Outcomes

- 1. Develop an understanding of the dissertation process, guidelines, and protocols
- 2. Develop and defend a successful proposal.
- 3. Navigate the IRB process with guidance from the chair
- 4. Carry out the proposed research, collect and interpret data
- 5. Develop and defend the Final Dissertation Defense.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students should have basic knowledge of MS Office, including Word, PowerPoint, and Excel documents. The myLeo Mail is required to communicate with the professor and other students. The use of the Learning Management System (LMS) D2L is important for success in the program. Tutorials and support are available to learn these skills. Students should be able to do basic research and be proficient in using library databases and internet searches for primary and secondary sources, documents, and publications.

Instructional Methods

This web-based course provides a resource base to develop the proposal, carry out research and successfully defend the dissertation. While all work is individualized and developed in consultation with the chair, it is expected of the student to take initiative, be aware of all deadlines and communicate regularly with the chair.

Student Responsibilities or Tips for Success in the Course

Students will be required to log into the course daily and use University email to communicate with the chair regularly. All established deadlines and product expectations are to be delivered to the chair as specified with each individual student

GRADING

Final grades in this course will be based up Satisfactory / Unsatisfactory system. In most cases students will be issued an "I" for Incomplete each semester which are changed to an "S" by the Registrar upon graduating. A "U" may also be issued if the student is not

making substantial progress toward completion of the dissertation in any given semester. Three or more "U"s are grounds for exiting a student from the program. Grading will be determined on progress toward specific deliverables agreed upon by the dissertation chair and student.

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M- - Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

TAMUC Pandemic Response

A&M-Commerce requires the use of face coverings in all instructional and research classrooms/laboratories. Exceptions may be made by faculty where warranted. Faculty members have management over their classrooms. Students not using face coverings can be required to leave class. Repetitive refusal to comply can be reported to the Office of Students' Rights and Responsibilities as a violation of the Student Code of Conduct.

Students should not attend class when ill or after exposure to anyone exposed to incommunicable illness. Communicate such instances directly with your instructor. Faculty will work to support the student getting access to missed content or completing missed assignments."

A&M-Commerce Supports Students' Mental Health

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. You may obtain assistance from the Counseling Center's crisis assessment services by calling 903-886-5145. Al use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the Instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors 'guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
