Introduction: An internship is an extremely valuable experience that can be a contributing factor in securing a full-time job and provides practical experience in your business field. As such, you should take full advantage of your opportunity to learn and do as much as you can that will reinforce what you have learned and expand your professional horizons. The work of the student intern will be similar to the work expected of a newly hired graduate with the student identifying and understanding the practices and protocols of the organization. Many companies will treat you just like a staff member. Students will also be expected to identify and understand what skills are transferable while simultaneously assessing their own personal skill set. An internship also offers students the opportunity to refine and reassess individual career goals. Remember, you want to leave your employer with a positive impression of yourself and your business program. As an intern, you are an ambassador of the College of Business and Texas A&M University-Commerce!

Course Administration: The primary source of course information and interaction is the course website hosted within MyLeoOnline (<https://myleoonline.tamuc.edu/d21/login>). The course is organized in modules and journal reflection assignment(s). In addition your supervisor must perform two performance evaluations of your work and two timesheets will be turned in. Due dates and assignment descriptions are provided below.

Course Interactions/Communication & Office Hours: If you have general course-related questions, please post them in the Discussion Forum that has been created for this purpose; if you have questions that are of a personal nature related to your performance or your internship, please reach out via email to Shernay Wormley, as she will be the over overseeing the course. I will respond to all inquiries (posted or direct) within two business days. As with all of your courses, use your official MyLeo email account to communicate with your professors. Any changes to course policy, schedule, or functioning will be posted in the course website in advance to the degree reasonably possible. Please email me in advance if you need special arrangements related to course requirements.
