Course Description

Upon the approval of the Graduate Coordinator and Grad Committee Chair, and admission to candidacy for the MFA degree, students will mount an exhibition that demonstrates a unified vision, and clearly articulated theme/approach, supported by an extended exhibition statement and visual documentation.

Student Learning Outcomes

- •Develop, clarify and communicate artistic goals by completing a focused and substantial body of artwork which will include the installation of a capstone exhibition and written exhibition statement.
- Pursue active production and critical methodology of studio work through individual meetings with faculty member towards developing a mastery of tactics, approaches, methodologies, and skill sets in support of a sustainable artistic practice.
- Engage the appropriate materials and tools of the media used to produce the work and invest an appropriate level of research to develop the work, from both a conceptual and formal perspective.
- •Demonstrate a critical awareness of the relationship of the final artwork to its social, cultural, historical, theoretical and contemporary contexts in an extended exhibition statement.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Access to D2L and Zoom
Reliable Internet connection

Instructional Methods and Student Responsibilities

MFA Exhibition is a self-propelled and capstone course in the studio art terminal degree. As such, the expectation is regular and extensive time commitment to, personal responsibility for, and follow-through on your practice, and the course commitments that support the finalization of an exhibition-ready body of new work. As in all terminal degrees, the onus is on the student to make the most of what is available—studio equipment, space, faculty feedback. Ask for what you need. Then ask again. Seek alternative approaches if what you need is proving a challenge. Prepare your work for exhibition within the requirements of the gallery space. Request specs and expectations for installation/de-installation early.

Resourcefulness is perhaps the most valuable skill for an artist!

The first item on our agenda is to make a calendar. We will need to meet at least 1-2 times a week.

You should make notes following each meeting, and submit (via D2L).

After-meeting notes take the form of bullet-points or handwritten quick reminders of artists, techniques, materials, installation methods, conceptual development and theories, artist statement points of clarification, etc. as suggested/discussed. This Summer course may focus on one area for development: installation and/or written statement. Regular drafts of your statement should be submitted/discussed each week, with a final Summer draft submitted at least 4 days before the final class.

For 3 credit hours I a few short weeks, the expectation is for additional work to be made per calendar week. This is the final push. **PUSH HARD.**

GRADING

Grading for the Exhibition Hours is Pass/Fail, as related to the conferment of the degree. The entire Committee assesses in the calculation of the final letter grade, according to these weightings:

Submission of Weekly Notes	5%
Regular Meetings with Faculty	15%
Informal, In-studio Midterm Crit with Committee	25%
Final Statement	15%
Final Exhibition	40%
TOTAL	100%

Assessment

Your work and activity in the course will be evaluated using the following criteria:

- 1. Your self-motivated, sustained and thoughtful attention to your work, and the reflection of that attentiveness in the quality in the discrete works in development, overall exhibition, and exhibition statement
- 2. The final works meeting your own goals, as discussed previously by Faculty Committee.
- 3. The quality of the works submitted in draft form, as well as the follow-through on professional expectations of a gallery show: wall text, artist statement/CV, etc.

Al use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors ' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
