COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings

Textbook: Foundations of Mental Health Promotion, 2nd edition Manoj Sharma, MBBS, PhD, MCHES. You will be provided with the e-book within D2L. You do not need to purchase this text on your own, as the cost is included in the course fees.

Course Description: This course is designed to teach students about mental health and mental illness with a focus on medical, epidemiological, behavioral, sociological, political, historical, developmental, and cultural perspectives in the field. Students will be introduced to the field of mental health promotion, and both individual- and population-level approaches to handling mental health concerns are emphasized.

Student Learning Outcomes

By the end of the course, the successful student should be able to:

- Students will be able to define and describe and differentiate the concepts of mental health, mental disorder, and wellness.
- Students will be able to discuss the tenets of health education and promotion and give examples or how to apply these tenets within the context of mental health.
- Students will be able to identify the determinants of mental health and how those determinants impact individuals and communities.
- Students will be able to define stress and discuss both the positive and negative consequences of stress.
- Students will be able to describe the role of the DSM-V in the evaluation and diagnosis of mental disorders and substance use disorders.
- Students will be able to identify and discuss several approaches to mental health and substance abuse treatment, including both pharmacological approaches and non-pharmacological approaches.
- Students will be able to name and describe the national organizations that support the research, diagnosis, and treatment of mental health disorders.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students should have a basic knowledge of computer and Internet skills to be successful in this course. Here are some highlights:

1. Knowledge of terminology, such as browser, application, URL, etc.
2. Understanding of basic computer hardware and software; ability to perform computer operations, such as: managing files and folders: save, name, copy, move, backup, rename, delete, check properties
3. Ability to use the learning management system, using Microsoft Word and PowerPoint, using presentation and graphics programs, accessing, and navigating sites like YouTube
4. Knowledge of copying and pasting, spell-checking, saving files in different formats and sending and downloading attachments
5. Internet skills (connecting, accessing, using browsers) and ability to perform online research using various search engines and library databases.

6. Ability to use online communication tools, such as email (create, send, receive, reply, print, send/receive attachments), discussion boards (read, search, post, reply, follow threads), chats, etc.

Instructional Methods

This is a face-to-face course. Information will be delivered through a combination of resources such as the e-book, lecture, case studies, PowerPoints, supplementary multimedia content, or reading materials. Quizzes, discussion boards, projects, and exams can serve as assessment methods for this course.

Student Responsibilities or Tips for Success in the Course

- Communicate effectively: Reach out via email with any questions or concerns as soon as they arise. Waiting until the last moment may result in the issue not being resolved appropriately.
- Manage your time wisely: Prioritize tasks and allocate sufficient time for studying, completing assignments, and reviewing course material.
- Review all course materials: assessments will include information from both the e-book and any additional material provided in the modules. Make sure you review it thoroughly.

Late work will not be accepted unless accompanied by a documented medical reason. Please note that vacations are not excepted as a reason. The policy is implemented to maintain fairness, consistency, and academic integrity within the course. All projects, quizzes, and other course-related tasks are expected to be submitted by the due date outlined in the course calendar. Any submissions received after the specified due date will not be considered.

Students seeking to submit late work due to a medical reason must provide appropriate documentation, such as a medical certificate or note from a healthcare professional clearly outlining the nature and duration of the medical condition that prevented timely completion of the assignment. The document must be submitted within 1 week of the original due date, unless extenuating circumstances warrant an extension, as determined by the instructor on a case-by-case basis.

AI USE POLICY

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, Chatbots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

For this course, the use of any form of AI for generating text, discussion boards, project information, and communication is prohibited and will be reported if used.

Students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
