This includes the ability to receive and submit electronic course materials; ability to use a word processing program; ability to send and receive e-mail; ability to upload and download files; ability to participate in online quizzes and discussions.

Instructional Methods/Activities/Assessments

This course occurs in a digital learning environment designed in module format. Each module opens and closes on a certain date and once a module closes it will not be opened again. Therefore, you need to demonstrate a level of time management that allows you to meet deadlines as posted.

Student Responsibilities / Tips for Success in the Course

Great effort has been made to create a well-organized online experience that will provide high levels of engagement in an environment that is safe and supportive.

Additionally, the readings and assignments are distributed weekly, so students can produce assignments in increments that distribute the workload of larger assignments. Staying up-to-date on assignments will improve success in the course.

Online features such as the Class Lounge and Virtual Office will also provide opportunities to communicate with other students in the class and the instructor.

If a student has any questions or concerns, we encourage them to contact their instructor, so they can work together towards a solution.
