#### Course Description

The purpose of this course is to provide an overview over the field of developmental psychology. We will discuss the history, major theories and principles, research methods, and research findings in developmental psychology. Special emphasis will be placed on stability and change, variability, and biosocial mediators and moderators in development. The majority of our readings are focused on childhood and adolescence, but some also cover life span development. The field of developmental psychology is large and the topics discussed in this introductory course reflect only a selection of possible topics. Students will, however, acquire an excellent foundation of knowledge in Developmental Psychology through their critical analysis and discussion of the course material.

Throughout the course, you should keep several major questions in mind:

What is development, and how can it be measured?

What are guiding theories, themes, and principles in the field of developmental psychology?

How are these principles applied in extant research?

How do social and biological factors jointly influence development?

*The syllabus/schedule are subject to change.*

What key theoretical and methodological issues need to be taken into account when designing developmental studies?

### **Student Learning Outcomes**

Students will be able to discuss:

1. Theories of individual development and transitions across the life-span (including cognitive, emotional, social, physical, and moral)
2. Theories of family development and transitions across the life-span
3. Theories of learning and personality development
4. Human behavior including an understanding of developmental crises, disability, exceptional behavior, addictive behavior, psychopathology, and situational and environmental factors that affect both normal and abnormal behavior
5. Strategies for facilitating optimum development over the life-span
6. Ethical and legal considerations related to human growth and development.

### **COURSE REQUIREMENTS**

#### ***Minimal Technical Skills Needed***

This course will use D2L.

#### ***Instructional Methods***

Video and textual lecture summaries and other supplemental course materials will be posted in D2L. Students will use these materials with the assigned reading to prepare for course assessments. Assessments will include exams, participation in online discussions, and an article summary. This online course contains the same content you'd expect in a traditional 15-week face-to-face version. You should plan on spending approximately 6-10 hours per week reading, viewing course content, completing course assignments, and participating in discussions.

#### ***Student Responsibilities or Tips for Success in the Course***

Read the textbook. View the online materials. Complete all exams and assignments. Start your assignments early and edit them before submission. Check you LeoMail and log into D2L EVERY DAY. Important class announcements will be made via email and posted on D2L.

**Broken Link Policy:** Online content is checked in advance, but in rare cases a link may stop working mid-week. If a link is no longer working, notify the instructor immediately and no later than 24 hours prior to the chapter due date. Any broken links will be remedied and announced in D2L, and therefore no adjustments will be made to student grades if this occurs.

#### **GRADING**

Final grades in this course will be based on the following scale: A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

*The syllabus/schedule are subject to change.*

## Assessments

### Exams (8% each)

There will be six non-cumulative exams. Each worth 8% of your overall grade in the course, for a total of 48% of your overall grade. Exams will consist of multiple-choice questions over the text book and assigned readings.

*All exams are due at 11:59 pm CT on the due date (see topic schedule).*

### Article Summary (22%)

Toward the end of the course, I will provide you with a recent article from the developmental psychology literature to summarize. You need to submit at least two single-spaced pages, being sure to summarize each section of the article. It is important to summarize it in your own words, and be careful of plagiarism. This summary is worth 22% of your overall grade.

*It is due by 11:59 pm CT on the due date (see topic schedule).*

### Discussion Assignments (10% each)

There will be three discussion assignments, each of which involve posting your response to questions in D2L. Posts must demonstrate that the student has reviewed, understood, and contemplated the material for the chapter and other assigned readings. You may include information from other chapters and outside knowledge but it must be cited appropriately. However, if you ONLY cite outside sources, then I will assume that you have not read the required readings for the course. In short, outside info is encouraged but not required. You must show me what you learned in THIS course too. If the question contains multiple parts, be sure to address each. **All discussion posts are due at 11:59 pm CT on the due date (see topic schedule).**

Discussion posts will be graded using the following rubric:

5 = Excellent: well written with lots of good ideas that are all well-defended by references to the course content.

4 = Good/complete: posts with some good ideas and references to the course content. Note that this is a passing grade and not one you should be upset about. However, it means that I think you can take your post to the “next level” if you add more content and dig deeper into your ideas. You will receive feedback on this and typically some examples or pointers to how you could accomplish this.

1-3 = Insufficient: posts with incorrect or insufficient information. Missing or minimal references to the course content. Note that this a failing grade and beneath the expectations of a graduate student. You will receive feedback on why your post did not meet the course standards.

*The syllabus/schedule are subject to change.*

0 = Missing: you did not complete the assignment by the due date.

Grades in between these categories (e.g., 4.5) may also be used if warranted.

## TECHNOLOGY REQUIREMENTS

### LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

## **COMMUNICATION AND SUPPORT**

If you have any questions or are having difficulties with the course material, please contact your Instructor.

### **Interaction with Instructor Statement**

It is best to communicate with me via email (curt.carlson@tamuc.edu). I will respond to emails within 24-48 hours. Please do not re-send your email unless at least 48 hours have passed since your last email.

## **COURSE AND UNIVERSITY PROCEDURES/POLICIES**

### **Syllabus Change Policy**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

### **University Specific Procedures**

#### **Student Conduct**

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct can be found at <https://www.tamuc.edu/student-code-of-conduct/>.

If you believe someone has engaged in behaviors that do not align with the Code of Student Conduct or you have other concerns, please visit the File a Report page at <https://www.tamuc.edu/office-of-student-rights-and-responsibilities/concerns-incident-reporting/>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum:

<https://www.britannica.com/topic/netiquette>

#### **Academic Integrity**

Students at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all of their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

### **TAMUC Attendance**

For more information about the attendance policy please visit the [Attendance](#) webpage.

### **Artificial Intelligence**

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, Chatbots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

### **Students with Disabilities-- ADA Statement**

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Services  
Velma K. Waters Library- Room 162

### **Nondiscrimination Notice**

Texas A&M University-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

### **Campus Concealed Carry Statement**

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

*The syllabus/schedule are subject to change.*

For a list of locations, please refer to the [Carrying Concealed Handguns On Campus](#) document and/or consult your event organizer.

Web url:
