### **COURSE INFORMATION**

#### **Course Description**

Students may fulfill SPED 691 (Educational Diagnostician Practicum) requirements through placement at a district field site with sufficient opportunities to meet direct and indirect course requirements must be scheduled. Securing a field-based Practicum site is the responsibility of the enrolled student. Signed authorization by the Director of Special Education of the participating school district is required for field-site placements.

Generally, districts welcome participation by Practicum students fulfilling direct and indirect SPED 691 requirements. Communicate early in your program with district and campus personnel about a tentative time period in which you expect to enroll in SPED 691. Required field-site supervision is provided by a district employee who is a certified educational diagnostician in the State of Texas with a minimum of 3 years full-time post-

placement site is approved by SPED 691 faculty. Enrollment during your preferred semester is not guaranteed. Admission is based upon numbers of students requesting enrollment each semester and other factors.

The major goal of the school-based practicum is to provide an integrated and coordinated series of learning experiences that will serve students with opportunities to: (a) practice and expand on previously held knowledge and learned skills; (b) develop new skills and knowledge; and (c) experience personal and professional growth and development. Through these experiences students will be contributing to their professional growth in becoming a competent educational diagnostician. Practicum students can expect to assist in serving various student populations, families, care providers, and school personnel (i.e., teachers, counselors, diagnosticians, others).

### **Artificial Intelligence**

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, Chatbots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

### **Students with Disabilities-- ADA Statement**

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
