Title: Contemporary Financial Management

Edition: 14th

ISBN-13: 978-1-337-09058-2

Required for Calculations:

The syllabus/schedule are subject to change.

A financial calculator and MS Excel are required for this course. Texas Instruments BA II Plus is a recommended financial calculator. Calculators must manipulate irregular cash flows.

Course Description

This course covers the major aspects of modern corporate finance in the context of an economic environment. It focuses on financial decision making and an understanding of domestic and international financial markets and securities. The course begins with an overview of the domestic and international financial marketplace. Other topics covered include the time value of money, valuation of assets (debt and equity), standard theory of risk and return, capital budgeting, and other decision rules that help maximize the value of the firm.

Course Learning Outcomes

At the conclusion of the course the students will be able to demonstrate proficiency in theory and the application of appropriate analytical tools to corporate decision making. They should be able to:

1. Analyze and evaluate different financial assets in domestic and international financial markets as sources of financial capital.
2. Apply present and future value concepts to special situations such as growth rates and loan amortization.
3. Evaluate strategic financial decisions in a risk/return context as it relates to today's dynamic world.
4. Demonstrate an ability to analyze and apply asset valuation techniques.
5. Students will be analytical problem solvers in business environments.

Course Learning Outcome 1 addresses COB Student Learning Objective 4: Students will identify and evaluate global business challenges.

Course Learning Outcome 2, 3, and 4 addresses COB Student Learning Objective

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

The syllabus/schedule are subject to change.

D = 60%-69%

F = 59% or below

Assessment	
<u>Course Evaluation:</u>	
Mid-term Exam	30%
Final Exam	30%
Homework Assignments/Quizzes	25%
Case Study	5%
LinkedIn Excel Courses	10% (Course I: 5%+Course II: 5%)

Exams

There will be three exams (two midterms and Final exam) in this course with a total of 60% (30+30) of the course grade. I will drop one of the mid-terms with a lower score. Final exam is compulsory. **There will be NO automatic makeup exams.** Missing exams will receive a grade of zero. If you have a valid excuse for missing either of the tests, you must contact me with a written justification and request for makeup 10 days **beforehand**. In most cases I will require students to provide me with additional documentation to justify their inability to take the exam. Please note that a simple note indicating that you were seen at the health center the day of the exam **does not** provide sufficient documentation. Excuses will be granted if the student is unable to take the exam because of serious illness or injury, or a significant personal or professional commitment. Excuses will not be granted for trips to sporting events (unless you are representing the university) or any other reason. In all instances, the instructor reserves the right to deny any request for a makeup exam if she considers the reasons provided by the student to be insufficient.

Homework Assignments/Quizzes

There will be five homework assignments, each contributing 5% towards the course grade. The assignments will be administered through D2L. Homework assignments will be a combination of Excel Assignment, Multiple choice questions and analysis of assigned reading.

Case Study

There will be a case study assigned in the middle of the semester and students would be expected
The syllabus/schedule are subject to change.

to work out the problem independently. This will constitute 5% of the course grade.

LinkedIn Excel Courses

There will be two Excel courses assigned on LinkedIn learning, each contributing 5% towards the course grade. You need to complete those courses and upload the certificate before the deadline.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
