Course Description

This course serves as one of the introductory classes in the doctoral dissertation writing process. The students will read and understand the Graduate School Doctoral Dissertation and the EDAD Doctoral Program requirements in the Doctoral Handbook. In this course, students will also gain knowledge and skills needed to write their literature review and compile a list of appropriate references.

Prerequisites: Doctoral status; EDAD 695 Minimum Grade C and EDAD 671 Minimum Grade C

Course Learning Outcomes

Upon completion of the course, the student will:

1. Develop advanced skills and knowledge of writing academic papers using the APA Style Manual 7th Edition.
2. Apply skills learned in this course to revise their completed Chapter I: Introduction
3. Analyze a completed literature review similar to your research topic using the Boote & Beile's Literature Review Scoring Rubric
4. Compose and submit a draft of the literature review.
5. Write references using the correct APA 7th edition style.
6. Evaluate peer reviewed articles.
7. Request articles and books from Inter-library loan, as needed.
8. Retrieve peer reviewed articles from various databases.
9. Create a citation engine account and import citations electronically (i.e., RefWorks, Zotero, Citavi, or Endnote web account).

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students will need to have access to a computer with Internet (high-speed preferred), access to a Webcam, and document productivity software (Microsoft Office preferred). Additional skills needed are using the new learning management system, using Microsoft Word and PowerPoint for presentation a graphics programs.

The syllabus/schedule are subject to change.

Instructional Methods

This class design is based on constructivist learning principles. This means that the instructor creates an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students actively participate in the class through the construction of their own learning. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement. Instructional activities and assignments will be delivered and received online using the D2L learning media platform.

Synchronous sessions will be announced in the online course and will be optional but highly recommended. Typically, synchronous sessions will be on Thursday evenings, 7-8 pm (Central time), and will be recorded and posted in the course.

Student Responsibilities or Tips for Success in the Course

When sending emails to me, please include your name and Course Number (EDAD 664-01W) in the subject line. I expect you to take responsibility for your own learning process. While the online course includes interactions between students and instructor and students and students, our discussions are mostly asynchronous; in other words, they are not immediate as in a face-to-face course. You must be comfortable waiting up to 24 hours for a response to their emails. There may be optional synchronous sessions, depending on the instructor's availability.

Tips for Being a Successful Online Student

Take the tutorials. Click on the *Campus Resources* and *Help tools* in your online course. Also, you may contact the Office of Academic Technology (OAT) experts for help. Phone numbers and emails are included in your online course.

Log on to your course frequently- Make sure to check your course daily.

Read the instructions carefully – Read and follow the instructions for each assignment and discussion thread.

Participate...Participate...Participate- Regular participation is very important to a quality online experience for everyone. Participate in the discussion board. What a great opportunity to learn from your peers. Jump in and contribute!

Budget your time, set schedules, and complete work on time - Make sure to block off regular time to work on your course, and stick to that schedule.

Be polite and respectful- Being polite and respectful is not only common sense, it is absolutely essential for a productive and supportive online environment. Being polite does NOT mean agreeing with everything that is stated.

The syllabus/schedule are subject to change.

Support your claim: It is expected that you will not agree with everything, and in stating your counter claim, support it with evidence. Evidence and respect.

Speak up if you are having problems- Technical difficulties are not an excuse for late or missed assignments. If you are having technical difficulties, or problems understanding something about the course, you **MUST** speak up otherwise there is no way that anyone will know that something is wrong.

Apply what you learn- Apply everything you learn as you learn it, so it will be committed to long-term memory. Also, make connections between what you are learning and your practice. All assignments must be revised before moving on to the next assignment.

A typical week might include:

1. Regularly logging in to the course website.
2. Reading through the current week's assignment and module lecture notes.
3. Re-reading the syllabus and tentative course calendar.
4. Thoughtfully reading the assigned textbook chapters and taking notes.
5. Thoughtfully viewing assigned videos and taking notes.
6. Responding (by the due date) to a discussion thread as posted by the instructor.
7. Reading and responding (by the due date) to the discussion post of fellow peers.
8. Completing and sending an assignment (by the due date) to be graded by the instructor.
9. Revising and re-writing written assignments. Writing is an iterative process.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Student Performance Evaluation:

Evaluation will be based on successful completion of each of the performance expectations. Each performance assignment has been assigned points towards the total on which the final course grade will be based. The points for each assignment may be viewed in the grade book.

All assignments must be completed to earn an A in this course.

The syllabus/schedule are subject to change.

Final grades in this course will be based on the following scale:

Grade	%	Points
A	90-100%	187
B	80-89%	166-186
C	70-79%	146-165
D	60-69%	125-145
F	59% or Below	124 or below

Caveat: This syllabus represents a relationship between the two of us regarding the evaluative measures and the content included in EDAD 664. I reserve the right to amend, revise, or change the content of the syllabus as deemed necessary.

Please Note: While students may receive numerical grades for various assignments listed in the syllabus based on the criteria provided by the instructor and which contribute to an overall grade average represented in the breakdown listed above, grades are given to primarily provide feedback to students and to guide the instructor in making an assessment of student work. The final grade awarded for the course, however, will be at the sole discretion of the instructor and will be based on several factors, including but not limited to the rubrics provided.

AI use policy [Draft 2, May 25, 2023]

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
