COURSE DESCRIPTION

Catalog Description Of Course

564. Individual and Family Crisis and Resources.

Three semester hours. A study of special problems encountered in family living with individual and community resources pertinent to them.

General Course Information

This course introduces various models of assessment of individual and family crises as tools for understanding and assessing the developmental and situational aspects of family crises. It provides a contextual framework for the application of individual and family intervention principles. This course will explore appropriate interventions in such selective family crises as death, terminal illness, suicide, chronic illness/disability, marital crises/separation/divorce, crime and violence, rape, natural disasters, war and imprisonment, marital violence, sexual abuse, physical abuse, drug and alcohol abuse. We will explore in further detail a sampling of the previously mentioned types of individual and family crises, while looking at a basic model of crisis theory and response, with a framework provided to hang specific crises upon.

Student Learning Outcomes (SLOs):

Measurement 1 (Knowledge):

I. Personal Assessment Paper. Students will identify personal factors (e.g., attitudes, values, behaviors) that can impact clinical abilities and approaches to crisis work. Students will also demonstrate knowledge of the impacts of burnout, vicarious trauma, and compassion fatigue.

Measurement 2 (Skills):

I. Personal Assessment Paper. Students will explore personal factors that may impact their clinical effectiveness and will develop preventive and/or restorative strategies to address these areas.

*All SLOs address the respective CACREP Standards evident in the syllabus.

Course Requirements

Minimal Technical Skills Needed

In this class, you will utilize the Learning Management System (LMS) entitled D2L for instructional and learning methods, submitting assignments, participating in online discussions, and completing exams. You will need to utilize other technologies such as Microsoft Word, PowerPoint, etc. If you have issues with this system, it is your responsibility to contact the help desk immediately.

Instructional Methods

This course consists of a fully online format (D2L), with lecture and didactic learning methods, small group discussions, and assignments coupled with practical application projects.

Student Responsibilities or Tips for Success in the Course

As a student in this course, you are responsible for the active learning process. Expectations of this course include the following:

1. You are expected to display professionalism at all times. Be respectful of your professor and peers. Be open to feedback, as you will receive this throughout the program.
2. Prepare for classes. Complete any and all readings prior to class time.
3. Complete all assignments by the deadline.
4. Adhere to the university student code of conduct.
5. Participate. During face-to-face classes, you are expected to actively participate in all activities and discussion. In the online format, you are expected to participate in all online discussions/activities. This is crucial to your learning.
6. All writing assignments must be done according to APA 6th edition.
7. Regularly check your University email. My suggestion is to check this at least once a day as your instructors and others from the department and University may contact you.
8. Begin your readings ASAP. Sometimes it may take more than one attempt to digest the material.
9. Deadlines are the last possible moment something is due—not the first moment to start. Work ahead. I realize this may not always be possible; however, when you can, do so. Be open to the process. This degree takes time, work, effort, and growth.

Assignments/Assessments

COURSE REQUIREMENTS AND GRADING (350 possible points, of which 90% would equal an A, 80% a B, etc.)

1. Attendance/Participation (Discussion Posts): 50 points

Participation. Appropriate (as defined by instructor) level of interaction/participation during online discussions and presentations is expected. Concerns/Infractions will be addressed individually by the instructor and recommendations made.

Students are expected to actively participate in and contribute to their learning experience. Active participation includes completing text readings and activity assignments in each unit and offering thoughtful contributions to online discussion. For each student, participation in discussion boards will NOT be determined by LENGTH of response, but by the level of thought put into the postings, the relevancy of the posting to the discussion, and the number of **thoughtful and relevant** postings. *Students will be expected to respond to weekly discussion posts and also at least one post to a peer’s per week to facilitate more of an interactive discussion.* The Participation portion of your grade includes the Discussion Boards found under each week, and under Course Home. Some of your responses to discussion boards will be counted as projects as listed below. **Participation includes the ability of the student to interact with the professor and peers in a professional and respectful manner. Failure to do so will result in points being deducted from your final grade.**

Attendance for an online course is measured by timely responses to discussion post requests (late posts will affect points) and Participation (active contributions online discussion and activities)

2. Personal Assessment Paper: (50 points)

Objective: To evaluate your own potential to effectively perform crisis intervention counseling.

In this approximately 5-page paper, you will identify and discuss personal attitudes, values, behaviors, and experiences that can impede or enhance your ability to do crisis work. Your

paper must reflect accurate knowledge of effective crisis worker characteristics and the dynamics of counselor burnout, vicarious traumatization, and compassion fatigue. You will use the course readings, and at least 3 professional journal articles dealing with counselor burnout, vicarious traumatization, or compassion fatigue as references. Cite all references, using APA format.

To prepare to write this paper, you will need to do the following:

1. Think about the topics we have read about and discussed in class so far.
2. Look ahead and give some thought to the topics we'll be addressing throughout the rest of the semester: PTSD, suicide, sexual assault, domestic violence, grief and loss.

In preparing to write your paper, consider the following:

What personal qualities or characteristics might enhance your ability to be an effective crisis worker?

What personal qualities or characteristics might impede your ability to be an effective crisis worker?

How might crisis experiences in your own life increase the potential for countertransference when working with clients who have experienced similar forms of trauma and crisis? What steps might you take to lessen the potential for and therefore manage countertransference in these situations?

What attitudes, values, behaviors, and experiences might contribute to your risk for vicarious traumatization or compassion fatigue?

What feelings, attitudes, motives, and/or expectations might increase your risk for burnout?

What are some preventative and restorative measures for burnout that are a good match for your particular needs?

****Remember that this self-assessment must be informed by the course readings and at least three professional journal articles dealing with this topic**

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
