COURSE INFORMATION

Seminar: Meets 08/26/2024 through 12/13/2024

Textbook: No textbook required

STUDENT LEARNING OUTCOMES

Introduce students to chemical research, chemical publications, literature reading and searching and to develop student's presentation skills. A presentation at the beginning of the course will show students how to use the search engine *Web of Science* and the database *Endnote*. Students will be expected to use these software tools to find and save their research articles. The course will give students knowledge on how to assimilate scientific information, develop an organized scientific presentation and present it to a broad scientific audience. Specific student learning outcomes from this course include:

1. Students will be able to demonstrate successful chemistry literature search skills.
2. Students should demonstrate the ability to assimilate and disseminate scientific knowledge effectively.

The student is required to present a 20-minute seminar on a paper from the leading chemistry journals (such as Journal of the American Chemical Society and Angewandte Chemie International Edition) within 2 years. You can search for a suitable article using the *Web of Knowledge* search engine found on the TAMU-C library website. The seminar must be organized to fit the allocated 20 minutes. The purpose of the presentation is to teach the audience about the **background, methods, results and findings** of the article

Guidelines for presenting a topic or paper from the literature:

1. Students presenting a 20-minute seminar over literature: *The student must submit the paper to the instructor at least 1 week in advance of the seminar for final approval. Place the article in my mailbox in the chemistry office. For every day late in submitting the paper for approval the*

student will lose 5% credit. The paper should already have signed approval from one of the research professors.

2. Instructor will evaluate your presentation using the form illustrated on the last page of this document.

COURSE REQUIREMENTS, ASSIGNMENTS AND GRADING:

Students are required to attend all seminars, work towards the preparation of their seminar, and make an individual presentation on the selected paper or topic approved by the instructor during the semester

Grading Procedure:

Seminar presentation (80%), presentation PowerPoint (20%). For every day late in submitting topic for approval = minus 5% from the seminar presentation grade.

A: ≥ 90.0; **B:** 80.0 ~ 89.9; **C:** 70.0 ~ 79.9; **D:** 60.0 ~ 69.9; **F:** <60.0.

TECHNOLOGY REQUIREMENTS

LMS – myLeo Online – D2L Brightspace

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

AI use policy

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed. In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

Rubric for Evaluating CHEM 501 Presentations

Seminar Speaker

Date

Grading system (score each question on a scale of 1 to 4, 1 = poor, 4 = excellent)

1. Chemical Literature Skills

Did the Presentation include valuable material related to the concise discussion of previous research literature in the area? Evidence of related valuable material includes references and a clear understanding of previous contributions.

1= The Research Project showed no real evidence of knowledge of previous research literature in the area. 2= The Research Project showed some knowledge of previous research literature in the area but was lacking. 3= The Research Project showed valuable knowledge and documentation of previous research literature in the area and benefited the project. 4= The Research Project showed an exceptional amount of knowledge and documentation of previous research literature in the area and was of great benefit to the project. SCORE _____

2. Communications Skills

Was the Presentation organized and developed in a way to communicate effectively to the general audience?

1= The Research Project was poorly organized and did not effectively communicate with the general audience. 2= The Research Project showed some effective communications with the general audience but was lacking. 3= The Research Project was well organized and effectively communicated its principle ideas to the general audience. 4= The Research Project showed an exceptional organization and degree of communication with the general audience. SCORE _____

3. Presentation Aids

Were audiovisual aids effective in illustrating and clarifying points in the talk?

1= The audiovisual aids were poorly organized and did not effectively communicate with the general audience. 2= The audiovisual aids allowed some effective communication with the general audience but was lacking. 3= The audiovisual aids were well designed and effectively communicated its principle ideas to the general audience. 4= The audiovisual aids were very clear and useful showing exceptional design to aid in communication with the general audience. SCORE _____

4. Understanding

Did the student display an understanding of both the details and the 'big picture' of the research problem?

1= The presenter showed no real evidence of knowledge of the research topic. 2= The presenter showed some knowledge of the research topic but was lacking. 3= The presenter showed good knowledge of the research topic. 4= The presenter showed an exceptional amount of knowledge of the research topic. SCORE _____
