

## CHEM 550-01B: Advanced Methods in Chemical Research

LAB TIME AND LOCATION: Mon-Fri; Flexible typically 20 hours per week. INSTRUCTOR: Dr. Laurence Angel, SCI 341 Phone: 5391, Laurence.Angel@tamuc.edu OFFICE HOURS: Mon- Fri: 4:00 – 5:00pm

**COURSE DESCRIPTION:** The course will provide students with the knowledge and skills to conduct advanced chemical research in the department. The student will become familiar with a range of advanced research techniques including literature reviews, instrumental analyses, data analyses and report writing. The student will be required to provide research-quality data and present their research through technical reports. The student will develop critical reading skills to understand research articles and develop their own technical writing skills. The use of databases and online research tools such as the SciFinder, Web of Science and Endnote for searching and collecting scientific literature will be required. The student will also present their research progress using a PowerPoint presentation at a group meeting or at a research conference. These skills are important aspects for recording and disseminating scientific knowledge.

**STUDENT LEARNING OUTCOMES:** Students will show the necessary skills involved in conducting advanced research by developing their knowledge and skills. Outcomes will include completion of laboratory research, chemical database searching, critical article reading, technical writing, and oral presentations. Students will be required to complete weekly research assignments and present their research progress to the instructor through quarterly submissions of midterm progress reports. At the end of the semester a final comprehensive research report and PowerPoint presentation are due. The class is 3 semester hours.

#### COURSE REQUIREMENTS, ASSIGNMENTS AND GRADING

**Research assignments and midterm reports:** introduction to a scientific problem, literature review, and research results. Weekly assignments due to be completed each week (40%) **PowerPoint presentation**: presentation of your research to instructor and research group (30%) **Final research report**: comprehensive report of your research results including an introduction with a literature review, research methods, research results, discussion and bibliography (30%)

# **COURSE AND UNIVERSITY PROCEDURES/POLICIES**

#### **Syllabus Change Policy**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

#### University Specific Procedures

#### **Coronavirus Protection Measures**

A&M-Commerce suggests the use of face-coverings in all instructional and research classrooms/laboratories. Exceptions may be made by faculty where warranted. Faculty have management over their classrooms. Students should not attend class when ill or after exposure to anyone with a communicable illness. Communicate such instances directly with your instructor. Faculty will work to support the student getting access to missed content or completing missed assignments.

#### **Student Conduct**

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the <u>Student Guidebook</u>.

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

## AI Use Policy

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors 'guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.
