BSCJ WITH EMPHASIS IN LAW ENFORCEMENT LEADERSHIP DESCRIPTION

The Bachelor of Science in Criminal Justice with an emphasis in Law Enforcement Leadership (BSCJ-CJCB) at Texas A&M University-Commerce is a 100% online, competency-based program designed specifically for first responders: law enforcement, peace officers and military personnel with existing work experience, police academy training, or other certifications. Courses are offered in an accelerated format, so students can move swiftly through material they already have mastery over and focus more attention on topics that are new and challenging to their existing knowledge base. The courses are self-paced, so students can work according to their own schedules. Students in the BSCJ-CJCB program develop practical workplace competencies that meet current and future challenges facing first responders today.

COURSE DESCRIPTION

This course concentrates on effective communication of law enforcement and criminal justice professionals for a range of audiences: the public, media, court officials, etc. Focusing on both oral and written communication, you will improve your general public speaking abilities, apply principles of de-escalation, and understand why communication is essential to the role of police in today's society.

STUDENT LEARNING OUTCOMES

Completion of this course provides the student with the knowledge to:

1. Describe and utilize strategies to improve general oral and written communication skills.
2. Apply effective methods that translate across organizational culture within law enforcement agencies.
3. Demonstrate principles of de-escalation in highly volatile situations.
4. Utilize tools of effective communication to enhance public speaking and engagement.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three-semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

COURSE REQUIREMENTS

Minimal Technical Skills Needed: Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

Instructional Methods: This course is an online course. To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) must be completed. Please contact the instructor by email for any assistance.

Email your instructor as soon as you complete your pre-test so the instructor can access and grade your work.

Student Responsibilities or Tips for Success in the Course: To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) should be completed. Please contact the instructor by email for any assistance.

Assessment

Students must achieve 80% or higher for both the post-test and culminating project to demonstrate competency and pass the course.

Pretests

The purpose of the pre-test is to provide a baseline understanding of your knowledge of this competency. Pre-tests are taken once and should be completed upon the first couple of days of a CBE academic term or entry into a course if a student is an accelerator. The pre-test is required before you begin studying course materials. If students do not make at least 80% on the pretest, they will be expected to complete assignments, quizzes, and other course content to prepare for the post-test and culminating project. Students are required to complete the post-test even if scoring 80% or higher on the pre-test. The grade on the pre-tests do **not** count in the final grade for this course.

Posttests

The module posttests assess student knowledge and understanding of major concepts, theories, processes, etc., in the course/modules. A **score of 80% or higher is required** to demonstrate competency. If you score less than 80% on the posttests, you will have an opportunity to review the material and retake the posttests two additional times. Students who fail the posttests should review feedback from the instructor before reattempting the posttests. If the posttest scores are less than 80% within three attempts, students will receive a grade of "F" in the course and will be required to retake the course in the new term. **DUE: Last day of week 7, Friday by 11:59 PM CST.**

Culminating Project

The project assesses your knowledge of terms and the application of concepts presented in this course. A **score of 80% or higher is required** to demonstrate competency. **DUE DATE if you want feedback for revisions: End of week 6. HARD DUE DATE: Last day of week 7, Friday by 11:59 PM CST.**

If students score less than 80% on the culminating project, they will have an opportunity to review the material and resubmit the project up to two additional times. If the culminating project is less than 80% within three attempts, students will receive a grade of F in the course and will be required to retake the course in the new term.

GRADING

A score of 80% or higher on both the Culminating Project and Posttest is required to demonstrate competency and receive credit for the course. The following items will be used to calculate the final grade in the course.

Item	Worth
Module 1 Posttest	25 points
Module 1 Written Posttest	25 points
Module 2 Posttest	25 points
Module 2 Written Posttest	25 points
Module 3 Posttest	25 points
Module 3 Written Posttest	25 points
Module 4 Posttest	25 points
Module 4 Written Posttest	25 points
Culminating Project	100 points
Total	300 points

Grading Scale

A = 90%-100%

B = 80%-89%

F = 79% or Below

Acceleration Process

Students enrolled in competency-based education courses in the College of Innovation and Design are permitted to accelerate from one CBE course to another during a seven-week academic term under certain conditions. The request to accelerate from one course to another must be initiated by the student upon successful completion of currently enrolled CBE courses. Students are responsible for maintaining communication with faculty and their assigned advisor(s) throughout the acceleration process. Students who fail a course or who drop/withdraw from a CBE course are not eligible for acceleration. Students may only request permission to accelerate in one course at a time. Request to accelerate is initiated and completed by 5:00 pm CST on the fifth Friday of a seven-week academic term.

Process

1. Student successfully completes all required coursework in their CBE courses(s) with a grade of "A" or "B."
2. Student receives emailed verification from the assigned instructor that the course has been satisfactorily completed (Grade of A or B only).
3. Student contacts assigned advisor to provide proof of completion and discuss eligibility for acceleration into another course.

Interaction with Instructor Statement

This is an online course; therefore, expect most communication to be online as well. If you have any questions or are having difficulties with the course material, please contact your instructor. Correspondence will always be through university email (your “myLeo” mail) and announcements in myLeo online (D2L). The instructor will make every effort to respond to emails within 24 provided the correspondence follows the requirements listed below. Students are encouraged to check university email daily.

All emails from students should include:

- **Course name and subject in the subject line (ex. EDCB 517 – Posttest)**
- **Salutation**
- **Proper email etiquette (no “text” emails – use proper grammar and punctuation)**
- **Student name and CWID after the body of the email**

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

[Graduate Student Academic Dishonesty Form](#)

CID Policy on Academic Integrity

Academic dishonesty includes cheating, complicity in cheating, multiple submissions (or substantial portions) of the same work for credit without authorization, submitting another's work, plagiarism, submitting algorithmically (AI) plagiarized work, and other acts that may reasonably be called academic dishonesty.

- Students who commit academic dishonesty will receive a grade of 0 for the assignment in the course and be issued a Written Warning that is reported to the CID Assistant Dean's office and listed in a database.
- If the student does NOT have a previous Written Warning for academic dishonesty reported in CID courses and has additional attempts available for the assignment, the student may resubmit the assignment (this applies to CBE courses only).
- If the student has a Written Warning of academic dishonesty reported in CID courses, the student may NOT resubmit the assignment, and the instructor will follow the procedure detailed in [Policy 13.99.99.R0.03](#) for Undergraduate Academic Dishonesty and report the incident to the Provost Office.

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
