COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Specific Requirements

1. **Use of Person-First Language:** You are expected to use Person-First language at all times when referring to individuals with a disability/diverse learning needs. "Person-First" language always refers to the person first and not as a label or category. This order serves as a reminder to the speaker and the listener that the person is always more than his or her disability and/or diverse learning needs.

The syllabus/schedule are subject to change.

For example, refer to “a student with autism” and not “an autistic student”. It is preferred that you say “students with disabilities” and not “disabled students”. In addition, avoid such stigmatizing terminology as “confined to a wheelchair” (say “uses a wheelchair” instead—if you think about it, wheelchairs promote independence rather than confinement). Additionally, practice using the term “general education” in place of “regular education”.

2. **Professionalism and class Participation:** The subject matter of this course, in particular, with its emphasis on the practical application is both challenging, and at times, wonderfully debatable. This is a space for you to practice professionalism with your peers and the instructor. Student participation and discussion are critical elements of the course structure.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.
