## Welcome.

This course is a fully Online course (01W), all assignments and exams will be online, and no in-class participation is required except for the live zoom guest speakers which will be announced in advance and your attendance will count towards the participation portion of your final grade.

Each week will consist of completing the assigned modules and appropriate quizzes and some combination of live instruction, pre-recorded supplemental information or a live guest speaker. All sessions will be recorded for those who are unable to attend. I have set a schedule for the first 9 weeks of the 16 week semester. It is only a tentative schedule because this is the first time I have taught this material. I am allowing flexibility to allow us to speed up or slow down as

needed. If time permits, we will get started on some of the other 4 courses required to sit for your exam.

For the quiz assignments, you need to upload a screen shot of each 'Unit Exam', not the 'Reading Comprehension'. To avoid any confusion, I have provided a link to the unit exam within each week's module. You can access it directly from there.

At the end of the course, you will complete a final exam for each course. K-I and K-II completion quizzes mean Principles of Real Estate in Texas-I Final Exam & Principles of Real Estate in Texas-II Final Exam, respectively. After taking the final exam, you will receive a completion certificate. You need to upload the certificate for these two completion quizzes.

Thanks,  
Dr. Scott Sewell

released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products.
