Welcome to MKT **306.01SE, 8RE & 01W (Marketing) Fall 2024.**

This semester, I will be combining the Face-to-Face sections with my Online sections inside the D2L (BrightSpace) Platform.

The Face-to-Face section of this course (1SE) is scheduled to meet in the McDowell Administration Building in Rm 340, and the Face-to-Face section (08RE) will meet in the TBD room at our Dallas campus, from Aug. 26 – Dec. 13, 2024, on Tuesdays and Thursdays from 11:00 am – 12:15 pm. For the face-to-face sections, in-class attendance will be expected and checked.

For the Online section of this course (01W), all assignments and exams will be online, and no in-class participation is required. I will also be recording the Face-to Face live sessions, and they will be made available for everyone's use.

At this point, I expect a normal week will include some combination of live lectures, pre-recorded lectures, and/or an outside of class activity or assignment.

This course is an introduction to the concepts, principles, problems and applications of marketing. Student Learning Outcomes

This course aims to improve student understanding of concepts, principles, problems and applications of marketing. After completing this course, students should be able to:

1. SLO 1: Students will demonstrate an understanding of essential marketing terminology and concepts, including the marketing concept, market analysis and planning and the marketing mix.
2. SLO 2: Students will apply essential marketing terminology and concepts to a personal branding assignment.
3. SLO 3: Students will apply the market planning process to develop a strategic marketing plan.
4. SLO 4: Students will work cooperatively on a team project.
5. SLO 5: Describe the use of four key marketing analytics: Return on marketing investment (ROMI), revenue analysis, market share analysis, and profitability analysis.

COURSE REQUIREMENTS

Instructional Methods

The course is organized with weekly assignments. Exams and discussion will be grouped in three modules: CH 1-5; CH 6-10; and CH 11-16.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Weights for Assessment	
Core Concept Quiz	5%

3 Exams	30%
Connect Chapter Homework	25%
Personal Branding Assignment Team Marketing Plan (including Individual Team Member Evaluation.	15% 25%
Total	100%

Assessments: This course is made up of a series of assignments and assessments to assist you in achieving the course and module learning objectives/outcomes. Each week you will work on various combinations of assignments, activities, readings, research, etc. which will be made available to you by each Monday in D2L under the Week # tab **(to access them, click on Content at the top then click on the correct Unit and then the correct Week tab on the left)**. These will close at midnight on Sunday of that week unless another date is specified. **There may be additional extra credit opportunities/assignments throughout the semester that will NOT be listed in the syllabus but will be posted in the Weekly list of things to be completed. Be sure to check for them weekly in D2L.**

Please do not use any form of Artificial Intelligence (AI) for any assignments in this course. I am only interested in reading your work, not that of a computer.

Exams & Quiz: (35% of total course grade) (SLO 1)

Closed book exams will cover the required textbook reading and the content of the online lectures. Complete the exams online by accessing the D2L quiz tool. The exams will be timed and grades made available to students following the submission of the exam. If you lose Internet connectivity during the exam, log back in immediately and continue with the exam. **Save your answers often (every 5-10 minutes)**. If you experience any issues while taking the exam, you must contact the Helpdesk immediately so that your issue is documented with a helpdesk ticket number. Considerations regarding exam issues will be made by the instructor on an individual basis based on the documentation.

3 Chapter Exams (30% of total course grade) (SLO 1) consist of **50** questions, mainly multiple-choice with some fill in the blanks, with **60** minutes allowed to complete each exam. You will only see one question at a time, and you must answer it before proceeding to the next question. There is no going backward so once an answer is selected it cannot be changed. This does require good knowledge of the material and time management. Exams are closed book and individual. That means using your book or notes, or working with another student is considered cheating and is grounds for an F in the course. Grading is objective, based on terms, concepts and examples in the textbook.

Core Concept Quiz: (5% of total class grade) (SLO 5) consists of multiple-choice questions over key terms that will be covered in the textbook. I will give you a list of specific terms to study about 2 weeks before the quiz.

This course employs Proctorio, a proctoring service to ensure exam security. Proctorio relies upon an algorithm to flag suspicious behavior. Your instructor can review recorded testing sessions to determine if cheating has taken place. An exam should be a measure of a student's learning. Academic dishonesty diminishes a student's learning, and also devalues the learning of other students. It is unacceptable in an academic community. Proctorio software may be used during one or more exams. If you do not have a camera on your computer, the instructor will send you a link to purchase an external camera for approximately \$10, which must be ordered in advance of the exams.

Assignments (65% of total course grade)

An important part of this course is applying what you have learned to real examples. You will apply marketing concepts to yourselves to create a marketing plan that describes your target market for future employment, likely competition, major selling points, and a marketing mix to market your personal brand (including a resume).

Connect Homework Assignments (25% of total course grade)

I'll assign interactive exercises for each chapter in the textbook. You will log into assignments through D2L under the section for Interactive. These assignments must be completed before the given deadline. I strongly recommend that you read the chapter first, and then review the PowerPoint presentation before you attempt the assignment. **Time management and meeting deadlines are important in the business world. Homework deadlines are not negotiable, so plan to set up reminders to avoid a zero.**

Assessment Method: Connect assignments are objective-formatted questions. Your points are weighted to equal 15% of your final grade.

The **Personal Branding assignment** is worth **15% of your final grade and includes a current resume. SLO 2**

The **Team Project is worth 25% of your final grade.** It will begin mid-semester after you have completed the Personal Branding Assignment. I will assign teams of 4 or 5 students; your team will choose a brand from the assignment list and research the current competitive situation and marketing efforts of your brand. Based on what you have learned, the team will then expand the product or service to a new market

segment or create a new variation of the product or service to develop objectives and a new marketing mix. The plan must be written sequentially so that the marketing mix fits the objectives and situation. One member will submit the group paper (in its entirety) to the Dropbox with all names alphabetically. **5% of your team project grade will be a team member evaluation** of yourself and your other team members' participation and quality of work on the project.

Assessment Method: Papers will be graded on the comprehensiveness of the assignment (i.e., covering every element in the assignment), quality of research (using appropriate sources, objective sources), thoroughness of research (quantity of sources), quality of writing, incorporation of marketing terms and concepts in the paper, and originality of your recommendation. See the rubric at the end of the syllabus for specific grading criteria. **SLO 3 and SLO 4**
