CSCI 516 (01W) Fundamental Concepts of Computing/Machine Organization

COURSE SYLLABUS: FALL 2024

(Revision date: August 25, 2024)

INSTRUCTOR INFORMATION

Instructor: Jino Kim, Ph.D.

Office Location: CS/JOUR 217

Office Hours: TBD (thru online course page)

University Email Address: jino.kim@tamuc.edu

COURSE INFORMATION

Textbook(s):

- Assembly Language for Intel-Based Computers, 6th Edition, by Kip R. Irvine, Prentice Hall, ISBN-13: 978-0-13-602221-1

Software Required:

- Assembly programming (MASM assembler and linker)

Optional Texts and/or Materials: None

Course Description

Fundamental Concepts in Computing and Machine Organization. Three semester hours. Concepts of assembly language programming and machine organization of a modern digital computer are presented. Students will have the opportunity to study machine addressing, stack operations, subroutines, programmed and interrupt driven I/O, machine organization and computer architecture at the register level. Students will utilize the 80x86 instruction set and will perform programming exercises. Prerequisite: CSCI 515 or programming experience in a higher-level language. In this course, concepts of assembly language programming and machine organization of a modern digital computer are presented. Students will have the opportunity to study machine addressing, stack operations, subroutines, programmed and interrupt driven I/O, machine organization and computer architecture at the register level. Students will

The syllabus/schedule are subject to change.

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

utilize the 80x86 instruction set and will perform programming exercises. The main objective of this course is to teach students basics of machine organization and how to program in assembly language.

Student Learning Outcomes (Should be measurable; observable; use action verbs)

1. Students will demonstrate knowledge of the Binary, Decimal, Hexadecimal numbering systems be able to convert from one system to another and demonstrate knowledge of two's complement notation.
2. Students will demonstrate knowledge of basic Computer Organization: design logic; digital diagrams, and basic circuits and gates, and the link between Boolean functions, circuits, processor and machine code.
3. Students will demonstrate knowledge of the concepts of machine instructions; interrupts; assembly language programming, assembly, linking and running of a program; I/O devices; memory mapped I/O; assembly language addressing modes.
4. Students will demonstrate knowledge of the concepts of Jumps, flags, subroutines, procedures, and stacks.
5. Students will demonstrate knowledge of the concepts of Arrays, addressing modes and Floating Point memory management, indirect addressing.
6. Students will demonstrate knowledge of the concepts of advanced procedures, local variables, stack parameters, strings, and links to higher level languages.

COURSE REQUIREMENTS

Prerequisites

None

Minimal Technical Skills Needed

- Basic programming knowledge in a high level programming language

Instructional Methods

- Textbook reading with provided slides
- Basic assembly programming

Student Responsibilities or Tips for Success in the Course

- **Assignments:** On-time submission of assignments; Your answers should be typed and submitted in a single PDF file (unless otherwise instructed) – Any handwritten answers and non-PDF formatted submissions may not be graded resulting in a zero point.

The syllabus/schedule are subject to change.

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

- **Exams:** Well prepared for exams (with an ability to answer questions within the given exam time); Due to increasing cheating incident reporting, this course employs the following format for online testing: (1) You can see one question per page, (2) you cannot proceed to the next question unless you answer the current question, and (3) it is not allowed to go back to the previous question. This should be strictly applied to minimize any possibility of academic dishonesty/misconduct
- **Communications:** This is an online-formatted course, and it is mandatorily required that the student reads announcements from the course page on a daily basis and email messages from the instructor without any significant delay (within 48 hours).

The syllabus/schedule are subject to change.

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

GRADING (Tentative)

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Weights of the assessments in the calculation of the final letter grade:

Components	Weight	Remarks
Assignments	30%	One lowest score will be discarded
Midterm exam	35%	Two exams: the lower score will be discarded
Final exam	35%	Cumulative

Attendance Policy:

This is an asynchronous, Web-based section and no synchronous meetings are required. For successful communications, the students are required for reading announcements with no significant delay (within 48 hours), disseminated through the course page and email messages.

Assignment Policy:

The deadline for the assignment can be extended with a 15% penalty per day, up to two days (48 hours). Any submission later than 48 hours after the deadline will not be accepted and graded. No extension/resubmission request will be accepted (and even responded to); One lowest assignment score will be discarded.

Exam Policy:

Makeup exams will not be given for any reason. However, students will have two midterm exams, and the higher score will only be considered for the final grade calculation. If a student is unable to take the final exam for any emergency reason, the student may receive an 'X' (incomplete), which is defined as follows:

"When an "X" is given for a grade in a course, the credit hours and grade point averages are not included until a grade is received which can be up to one year. If the "X" is not removed by that time, the grade becomes an F, and the hours are included in the number of hours attempted."

Academic Misconduct:

The violation of academic integrity (including cheating and plagiarism) may cause a zero point on that work. Subsequent misconducts may result in a failing grade with the official filing of the case.

The syllabus/schedule are subject to change.

The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

<https://community.brightspace.com/s/article/Brightspace-Platform-Requirements>

LMS Browser Support:

https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

YouSeeU Virtual Classroom Requirements:

<https://support.youseeu.com/hc/en-us/articles/115007031107-Basic-System-Requirements>

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

Artificial Intelligence and ChatBots

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

COURSE OUTLINE / CALENDAR

Course schedule: The schedule may be subject to change.

WEEK NO.	CONTENT	READING
1	Syllabus discussion, number systems	Syllabus
2	Basic concepts of assembly language	Ch 1
4	X86 Processor architecture	Ch2
4	Assembly language fundamentals (part 1)	Ch3.1-3.3
5	Assembly language fundamentals (part 2)	Ch3.4-3.6
6	Midterm Exam 1	--
7	Data Transfers	Ch4.1-4.2
8	Addressing and Arithmetic (e.g. arrays)	Ch4.3-4.5
9	Procedure (part 1)	Ch5.1-5.3
10	Procedure (part 2)	Ch5.4-5.6
11	Conditional Processing (part 1)	Ch6.1-6.4
12	Midterm Exam 2	--
13	Integer Arithmetic	Ch7
14	Advanced Procedures	Ch8
15	Course review	--
16	Final Exam	--

The syllabus/schedule are subject to change.
