## **COURSE INFORMATION**

### **Materials – Textbooks, Readings, Supplementary Readings**

#### **Recommended Textbook:**

Author: David C. Ling and Wayne R. Archer

Title: Real Estate Principles *A Value Approach*

*The syllabus/schedule are subject to change.*

Edition: 6<sup>th</sup>

ISBN-13: 978-1-260-01393-1

Publisher: McGraw Hill

### **Required for Calculations:**

A financial calculator and MS Excel is required for this course. Texas Instruments BA II Plus is a recommended financial calculator. Calculators must manipulate irregular cash flows.

## **Course Description**

This course is intended for graduate students. This course provides the student with an understanding of the basic terminology, structure and importance of real estate. This course serves as a foundation for study and research in specialized areas such as real estate finance, real estate investment and counseling, real estate management, real estate development, and property appraising.

## **Course Learning Outcomes**

At the conclusion of the course the students will be able to:

1. Understand time value of money and compute mortgage calculations using TVM techniques.
2. Understand legal concepts in real estate including property rights, deeds, and leases etc.
3. Understand the real estate market using demand and supply, urban economics, and appraisal.
4. Analyze complex debt financing scenarios, decide between available mortgages

**Course Learning Outcomes 1, 3, and 4 address COB Student Learning Objective 5:** Students will be analytical problem solvers in business environments.

## **GRADING**

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or below

*The syllabus/schedule are subject to change.*

## ASSESSMENTS

### Course Evaluation:

Mid-term Exam	45%
Final Exam	45%
Discussions	10%

### Exams

There will be two exams in this course. Each of them contributes to 45% of the course grade. **There will be NO automatic makeup exams.** Missing exams will receive a grade of zero. If you have a valid excuse for missing either of the tests, you must contact me with a written justification and request for a makeup 7 days **beforehand**. In most cases, I will require students to provide me with additional documentation to justify their inability to take the exam. Please note that a simple note indicating that you were seen at the health center on the day of the exam **does not** provide sufficient documentation. Excuses will be granted if the student is unable to take the exam because of serious illness or injury, or a significant personal or professional commitment. Excuses will not be granted for trips to sporting events (unless you are representing the university) or any other reason. In all instances, the instructor reserves the right to deny any request for a makeup exam if she considers the reasons provided by the student to be insufficient.

### Exam Dates:

**Mid-Term Exam: December 28, and 29**

**Final Exam: January 11, and 12**

### Discussions

There will be 4 discussions in total. Each week will have one graded discussion assignment in D2L. For the discussion, you are required to post one meaningful comment pertaining to that week's content, and one meaningful reply to a peer's post about each week's content. These two weekly discussion posts are worth a total of 5 points together. To get full credit, your posts must each:

- Be at least 3 sentences and 50 words in length.

*The syllabus/schedule are subject to change.*

- Be clearly related to the content of this week's module.
- Be accurate and/or consistent with the information presented on D2L, the textbook, and the instructor about respective week's module.
- Be appropriate and respectful to classmates and the instructor.
- Be written in clear and correct language without mistakes in grammar, spelling, punctuation, or wording.
- Be original or with proper credit given to any references.

Some examples of good posts are:

- Your personal and professional experience with the topic of the weekly module. If you work in the industry, then any non-confidential experiences from your job would make great posts to share with the class.
- Suggestions and links to reliable outside resources on each module topic. Some good places to look for outside resources are YouTube, Yahoo! Finance, and the National Association of Realtors (NAR) news and events. Tutorials and examples of financial calculations in Excel can be particularly useful for this course. Be careful to evaluate the reliability of outside resources. There is a lot of useless information about real estate and finance out there on the internet. If you are unsure about a source's reliability, then try to see if their information is consistent with what is already presented for this course on D2L and in the textbook. Please also take care to see that your outside sources are accessible, to the extent that this is feasible.

**Both discussion posts are due by midnight on Sunday of respective week.**

## **COURSE OUTLINE AND SCHEDULE**

<b>Week</b>	<b>Date</b>	<b>Content</b>	<b>Discussions</b>
Week 1	Dec. 16-20	Syllabus, Chapter 1,2	Discussion 1
Week 2	Dec. 23-27	Chapter 3,4,9	Discussion 2
Week 3	Dec 30-Jan 03	Chapter 11,12	Discussion 3
Week 4	Jan 06-10	Chapter 13, Chapter 14, Time Value of Money and WACC	Discussion 4

**Note:** Some of the above chapters will be covered in more detail than others.

### **Use of Artificial Intelligence (AI)**

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence. *The syllabus/schedule are subject to change.*

Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

## **TECHNOLOGY REQUIREMENTS**

### **Browser support**

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge

*The syllabus/schedule are subject to change.*

browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
