Mental Health and Well-Being

The university aims to provide students with essential knowledge and tools to understand and support mental health. As part of our commitment to your well-being, we offer access to Telus Health, a service available 24/7/365 via chat, phone, or webinar. Scan the QR code to download the app and explore the resources available to you for guidance and support whenever you need it.

Course Description

EDAD 718 *Doctoral Dissertation* (3 - 12 semester hours) A candidate must present a dissertation acceptable to the student's advisory committee and the Dean for Graduate Studies and Research on a problem in the area of specialization. To be acceptable the dissertation must give evidence that the candidate has pursued a program of research, the results of which reveal superior academic competence and a significant contribution to knowledge.

Student Learning Outcomes

1. Develop an understanding of the dissertation process, guidelines and protocols
2. Develop Chapters 1, 2, and 3 and defend a successful proposal.
3. Navigate the IRB process with guidance from the Chair.
4. Carry out proposed research, collect data and interpret results of research.
5. Develop Chapters 4 and 5 based on the research process and defend the Final Dissertation Defense.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students should have basic knowledge of MS Office including Word, PowerPoint and Excel documents. The use of Leo Mail is required for communication with the professor and other students. The use of the Learning Management System (LMS) D2L is important to success in the course. Tutorials and support are available to learn these skills. Students should be able to do basic research including library database and internet searches for documents and publications.

Instructional Methods

This web-based course provides a resource base to develop the proposal, carry out research and successfully defend the dissertation. While all work is individualized and developed in consultation with the chair, it is expected of the student to take initiative, be aware of all deadlines and communicate regularly with the chair.

Student Responsibilities or Tips for Success in the Course

Students will be required to log into the course weekly and use your MyLeo (University) email to communicate regularly with the Chair. All established deadlines and product expectations are to be delivered to the Chair as specified with each individual student.

Students will meet with the Chair via Zoom or in person multiple times each semester. Zooms may be individual or small group.

GRADING

Final grades in this course will be based up Satisfactory / Unsatisfactory system. In most cases students will be issued and “I” for Incomplete each semester which are changed to an “S” by the Registrar upon graduating. A “U” may also be issued if the student is not making substantial progress toward completion of the dissertation in any given semester. Three or more “U”s is grounds for exiting a student from the program.

Students must complete the following in order to receive an “I” for the semester:

1. Meet with the instructor a minimum of 2 times per the semester via Zoom to create a plan and discuss progress toward completing his/her dissertation. If the student is on a seven-year plan, this plan will be discussed as well as a target graduation date.
2. Enter a status of your dissertation work and a plan with a timeline during the first two weeks of the semester. A copy of your prospectus or proposal will need to be included in this assignment also. Feedback will be provided for this plan and current prospectus/proposal draft.
3. Complete a status report of what the student accomplished during the semester.
4. Make significant progress toward defending his/her proposal or defending his/her final dissertation. This will be measured by the draft submitted to the instructor at the beginning of the course and the drafted submitted to the instructor at the end of the course.
5. Grading will be determined on progress toward specific deliverables agreed upon by the dissertation chair and student.

Additionally, students will submit a copy of their prospectus or proposal at the beginning of the semester and a copy of their updated prospectus or proposal at the end of the semester as part of the process of determining substantial progress toward completion of the dissertation.

Grading will be determined on progress toward specific deliverables agreed upon by the dissertation chair and student.

Artificial Intelligence

Texas A&M University-Commerce acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course.

Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism).

Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed.

In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources.

Interaction with Instructor Statement

The preferred method of communication is email; thus, use email to message as well as schedule e-conferencing.

The assessment feedback time is within one week of the assignment due date. Any delays in this time (e.g., due to travel) will be communicated.

Interaction with Instructor Statement

Communication with students will be established through the students' Leomail account. Please make sure to check your Leomail account on a daily basis. During the week, I will respond to your emails at Teresa.Farler@tamuc.edu within a 24 hour time frame. On weekends, it may take up to 48 hours. Feedback to proposal/dissertation submissions will be completed in 5 - 7 days unless otherwise indicated by email.

You may also reach me via my cell phone (214.405.1592). If you have questions regarding an assignment, feedback on your assignments/work, or need clarity for completing work, please feel free to call me. If I do not answer, be sure to leave a detailed message, and I will return your call in order to help you.

I encourage you to use either Leomail or my cell phone if you need assistance.
