Course Description

This advanced generalist field practicum provides students with experience opportunities to integrate knowledge and theories with advanced generalist practice skills across rural and urban environments.

Students participate in an educationally directed field experience under supervision in an approved social services agency. They must complete 500 clock hours over two semesters (6 SCH).

Prerequisites:

Students must have completed all MSW foundation curriculum requirements, been admitted to the MSW program, have completed 12 semester hours in course work, and be in good standing in the MSW program.

Relationship to Other Courses:

Student Learning Outcomes (Should be measurable; observable; use action verbs)

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Listed below are the competencies and associated knowledge, skills, values and/or cognitive and affective processes that comprise the expected outcomes for this course.

	Activity/Assessment	Dimension
Competency 1: Demonstrate Ethical and Professional Behavior		
Make ethical decisions by applying the standard of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to rural and urban contexts and at the intersection of the two.	as demonstrated by the attendance of weekly field seminar discussion engagements	
Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations in rural and urban settings.	as demonstrated by the attendance of weekly field seminar discussion engagements	

Use supervision and consultation to guide professional judgment and behavior within the context of both/urban or rural settings and at the intersection of the two environments	as demonstrated by the attendance of weekly field seminar discussion engagements	
Design and engage in effective self-care strategies to reduce the	as demonstrated by attendance of weekly field seminar discussion engagements	

likelihood of compassion fatigue and burnout.		
---	--	--

Competency 2: Engage in Diversity and Difference in Practice

Apply and communicate an understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels within both urban and rural settings.	as demonstrated by the attendance of weekly field seminar discussion engagements	
They present themselves as lifelong learners and engage all clients (those in rural and urban settings) and constituencies as experts of their own experiences.	as demonstrated by the attendance of weekly field seminar discussion engagements	

<p>Utilize self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies recognizing the complex and chaotic environment cross over of rural and urban settings</p>	<p>as demonstrated by attendance of weekly field seminar discussion engagements</p>	
<p>Analyze the holistic and systemic nature of problems in rural/urban settings, taking care to attend to the special factors found within each unique environment</p>	<p>as demonstrated by the attendance of weekly field seminar discussion engagements</p>	
<p>such as dual relationships, inadequate transportation, extreme poverty, demanding access to health care, and disenfranchisement from political processes.</p>		

COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this class you will utilize the Learning Management Systems (LMS) D2L for instructional and learning opportunities, submitting your assignments, participating in online synchronous and asynchronous discussions, accessing resources, and completing quizzes/tests. Additionally, knowledge and skills in using Microsoft Word PowerPoint and Outlook Email, if you have any issues with using the various systems or

software, it is your responsibility to contact support services and to notify the instructor of the problem.

Instructional Methods

This course will be delivered via synchronous and asynchronous sessions via D2L and will consist of live class sessions, pre-recorded lectures, group engagement activities, various assignments with some including experiential learning and practical application of the content areas. In addition, small lectures, discussion activities and workshops may be utilized to provide instruction during this course.

Student Responsibilities or Tips for Success in the Course

As a student in this course, you are responsible for engaging in active learning and reaching out to the instructor if problems or challenges are interfering with optimal learning. Communication is key when engaged in a fully online, virtual environment.

Expectations for success include:

1. Always demonstrate professional behavior, including respect for the instructor and peers and being open to feedback and guidance throughout this class and the program.
2. Adhered to the School of Social Work and University student code of conduct and the NASW Code of Ethics.
3. Begin reading the assigned text and supplemental readings as soon as possible, focusing on completing all readings prior to engaging with the instructor or peers.
4. Prepare to engage in live class sessions, discussions, and other activities so you can contribute and receive knowledge and skills.
5. Actively participate in engagement activities, which will include live virtual class sessions, online discussions, and interactive learning opportunities—as this is vital for learning and success in both this course and the program.
6. Work ahead when possible, completing assignments before the due date so you are prepared to submit them on the due date.

7. Sign into the D2L course multiple times weekly to access updated announcements or posted resources.
8. Check your university email daily. This is the official method of communication by the university, department, and instructor.
9. Be open and focused on the “process” and not the “product,” as earning this degree requires time, effort, and work, and ultimately, growth in knowledge, skills, abilities, and personal and professional attributes.

Field Liaison Role and Seminar

The field liaison faculty member assigns the final grade for the student in the field practicum. Each faculty field liaison member is expected to visit electronically with the student and the student's field practicum agency once during the semesters or as needed on problematic issues.

All students enrolled in the field practicum must meet with the faculty field liaison and other students in a weekly field seminar meeting and/or complete the weekly seminar assignment. The format of the seminars is left to the faculty field liaison within the following guidelines:

- Field seminar meetings and/or assignments are scheduled every week • Students should be able to access live Zoom sessions and/or recordings as scheduled.
- Seminars are scheduled to last at least one hour.

The purpose of the seminar includes:

- Orientation to the field practicum
- Updates on field practicum expectations, requirements, or conditions.
- Opportunity for students to ask questions, express concerns, provide peer consultation, and share ideas and experiences regarding the field practicum & assignments
- Opportunity for students to familiarize peers and field liaisons with their agency services, population, and referral processes.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100% of total points

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Assessments

Field Learning Contract/Plan

The student and the field instructor should outline and sign a learning plan/agreement for the student based on course objectives. In addition, the plan is reviewed and signed by the faculty liaison. This plan becomes the guide for the practicum experience and the agency visits by the faculty liaison.

Students' Weekly Logs\Timesheets

Students keep a numerical record of their activities and a narrative account of their experiences in the agency. This report is submitted to the faculty liaison weekly in Tk20 and may be part of the online seminar class discussion.

Discussions:

The student will participate in the discussion during online weeks by responding to the prompt by the end of the assigned week. The student only needs to respond to the prompt, not other students, unless you desire.

Final Field Evaluation

The final evaluation is a written report of the student's agency experience. The student and field instructor use a rating scale to evaluate the students' performance. The suggested process for the final evaluation parallels that of the mid-term evaluation, whereby the student and field instructor complete the report independently and then, in conference, share and discuss their perceptions and observations. The final evaluation is forwarded to the faculty liaison by the field instructor in Tk20.

Final Review / Evaluation

The final review will evaluate the student's learning assignments, strengths, challenges, and learning experiences. It is suggested that the student and field instructor review the student's performance and then, in a conference, share and discuss their perceptions and observations. The final review should reflect the ideas of the field instructor and the student and will be reviewed during the virtual field visit with the field liaison three weeks

before the end of class. The results of the student's performance will be adjusted/updated in the evaluation section of the TK20 database system, listed as the Field Experience Form (Field Instructor-MSW Acknowledgement of Learning Contract, the Field Instructor-MSW Field Learning Evaluation, and the Field Instructor-Evaluation Input). The student's final grade is based on the final review/recommendation of the field practicum instructor (the agency-based field instructor) as well as the direct observations of the faculty field liaison.

School of Social Work and Council on Social Work Education Specific Policies

Course Engagement

Final Evaluation and Grade Depends on both Classroom attendance and Participation

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material. To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include but are not limited to, participation in live, synchronous virtual classes, attending a Face-to-Face course when appropriate, interacting with peers in posted discussions, and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the instructor.

Instructors are experts in each course content area and set the standards for students to meet to successfully complete the course.

Student Conduct

Students preparing to become professional social workers must adhere to the *University*.

Code of Conduct, Department Code of Conduct, and National Association of Social Workers (NASW) Code of Ethics.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offenses by being referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves ethically and professionally. The social worker's compliance with the profession's ethical standards is closely linked with professional recognition. Professional social workers must be competent and ethical in practice if the profession is to maintain public trust. Each social work student must thoroughly understand the ethical principles that guide practice and actively demonstrate behavior, both in and out of the classroom. Student conduct is to reflect the tenets of the *NASW Code of Ethics* (located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website: <https://www.socialworkers.org>

University Code of Conduct is *in the Student Guidebook at*

<http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website, under Campus Life Documents

To become aware of university policies related to student academic and behavioral expectations for students refer to the Guidebook
