Lab time (Web Based Class): Meets 01/13/2025 through 05/9/2025

Required Textbook: "*Microscale Inorganic Chemistry*", Szafran, Pike, and Singh, John Wiley & Sons. ISBN: 978-0-471-61996-3.

Course: This is the laboratory course that accompanies CHEM 415 lecture class and involves the preparation and study of a number of types of inorganic and organometallic compounds. Experiments will be described in the required text and in additional handouts if necessary.

Grading: Your laboratory grade will be based on 10 experimental write-ups (lab reports) (100%).

You are required to submit lab reports in a timely manner. You will incur a 10% penalty for every day that your lab report is late; thus, if a lab report is 10 days late, you will receive a zero for that report. There will be absolutely no make-ups for laboratory experiments. If you miss a laboratory experiment that will be your dropped laboratory write-up. If you miss more than one laboratory experiment, you will be assigned a grade of zero for that assignment. Dishonest scholarship will earn an automatic zero (0) and initiate prosecution to the fullest extent. Incomplete grades may be given only if the student has a current average $\geq 70\%$ and is precluded from completion of the course by a documented illness or family crisis.

Lab Cleanliness

You will be expected to maintain a clean and orderly lab. At the end of every experiment, your bench space and hood space must be cleaned. Any equipment utilized during the experiment must be cleaned as well (balances, rotovaps, etc.). You should ensure that sinks and floors are also clean. If the lab space and equipment that you utilized during the experiment is left dirty and

unorganized, you will be penalized 20% on your lab report and quiz associated with that experiment.

Each laboratory report will consist of the following sections:

- I. *Prelab Section – 40 points (due at the beginning of the laboratory)*
 - A. *Title – 2 points*
 - B. *Objective – 3 points*
 - C. *Procedure – 15 points*
 - D. *Physical Constants/Reagent Data – 10 points*
 - E. *Safety – 5 points*
 - F. *Stoichiometry/Theory – 5 points*
- II. *Postlab Section – 60 points (Must be completed by the beginning of the next laboratory period).*
 - A. *Modifications to procedure – 5 points*
 - B. *Observations – 15 points (this sections should be your notes of observations that you make DURING the course of the experiment)*
 - C. *Results – 20 points*
 - D. *Discussion – 20 points*
