

HC 401 Senior Seminar

COURSE SYLLABUS: Spring 2025

INSTRUCTOR INFORMATION

Instructor: Brittney Yager, MS
Office Location: Waters Library 156
Office Hours: M-F 8:30-4:30 by appointment
Office Phone: 903-468-3067
Office Fax: NA
University Email Address: Brittney.Yager@tamuc.edu
Preferred Form of Communication: **Email**
Communication Response Time: 1 business day

COURSE INFORMATION

Materials – Textbooks and Supplemental Readings: There are no required textbooks for HC 401. However, this course does require outside research and/or utilizing handouts/readings provided in D2L.

Course Description:

Senior seminar is a capstone experience for students to perform an in-depth examination of an issue(s) as they relate to the major or career they have chosen. The course requires students to draw upon leadership training, coursework so far, experiences with other cultures (travel, internships, employment, etc.) to examine or reexamine their own positions in relation to topics of global and career interests.

Student Learning Outcomes:

- 1.) Demonstrate knowledge of the interconnectedness of global dynamics (issues, trends, processes and systems) and how selected trends or issues impact their future field or career.
- 2.) Apply what they have learned from key experiences in the Honors College to their plans for the future, identifying marketable skills from their work with the HC, the university, and other related experiences.
- 3.) Illustrate critical thinking skills through written work and oral presentations.

The syllabus/schedule are subject to change.

- 4.) Demonstrate effective communication strategies through written work and oral presentations.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Software or Technology Required: Access to myLeo Online (D2L Brightspace) and a word processing system (preferably Microsoft Word). Also for creating an online presentation with audio/visual capabilities, I suggest familiarizing yourself with Loom, Canva, PowerPoint or GoogleSlides with audio/video.

Instructional Methods: This course is an online course conducted through D2L/Brightspace. Class consists of presentations, online discussions and writing assignments. Students should engage with the online class frequently and participate as if they were engaging with fellow students in a face-to-face class but no set or synchronous meeting time is required.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Assignment	Points
Mini journals (10)	150 points (15 points each)
Presentation proposal	30 points
Impact on the Future presentation	100 points
Presentation peer eval	20 points
LinkedIn profile	50 points
Total Points	350 points

Total points corresponding to the final letter grades

A = 315-350 Points

The syllabus/schedule are subject to change.

B = 280-314 Points

C = 245-279 Points

D = 210-244 Points

F = 209 & > Points

Assessments

Course Assessments: Course learning objects will be measured through various oral and written assignments. Assignments will help students integrate experiences from the entirety of their college experience and apply to real-world problems. Students will also work collaboratively and evaluate each other's work. Assessment details and due dates will be posted in D2L through the course calendar and course content tabs.

Mini Journals (10 @ 15 points each): Rather than a public prompt and response thread online for discussions, each person in class will submit a small 'mini' journal reflection based on the weeks topic. Reflections should be well-thought out and about 200-300 words. Topics will vary and include reflection on experiences, marketable skills, global competence, and current events. Points are earned through quality and thoroughness of response. Journal entries will vary but will create small snippets of information to use for the final presentation. All journal entries should be typed, double-spaced and follow standard formatting rules.

Presentation Proposal (30 points): Students will submit a proposal for their "Impact on the Future" presentation idea. Students will identify an issue, problem or trend in their field and connect their experiences (on and off campus) to helping address or solve that issue. Follow the D2L document laying out the guidelines for the proposal. Students will spend time identifying and explaining the issue in their field, focusing specifically on what research supports addressing it. Additionally, students should draw upon international or global resources to show a local issue in a global perspective or global examples of effectively addressing issue. Why is this important and how are people attempting to address it?

Impact on the Future Presentation (100 points): You're graduating and entering the "real world." How might your skill set, experiences and expertise help society? This requires that you give some thought to what society may look like in the future and how you might contribute to a specific set of problems. How has your experience at the university (and this program) prepared you to solve certain problems? What problems are you passionate about solving? For an example of what I expect from your presentation, consult Ted Talks. You may have notes on a "teleprompter," but you may not read from cue cards or a written script during your recorded presentation. Your presentation must include visual elements while you talk. We should also be able to see you in the presentation rather than just utilizing a voice-over. In your presentation, you must clearly articulate:

- The future (or current) problem or issue you anticipate

The syllabus/schedule are subject to change.

- Why you anticipate this will be an issue (which you will justify with cited support from experts)
- Your topic or issue in a global context –who else is talking about this and what (if anything) is being done about it?
- What your skill set contributes to this problem? (your experiences and strengths)
- How you will solve or contribute to solving this problem
- Experiences you have gained while at the university (particularly your capstone experience) that have prepared you to solve this problem

You may think of this presentation as a kind of proposal or sales pitch to someone who has the power to employ you or fund your endeavor. Imagine your audience as a wealthy benefactor who would fund it, a graduate school you want to allow you to study a specific topic relevant to problems in the world, a future supervisor you want to create a position within a company, et cetera. You have a lot of freedom to be creative here, but it is crucial that your presentation shows evidence of rigorous research, critical thinking, and creativity.

Presentations will be scored by class (40 points) and instructor (60 points) against the AAC&U’s VALUE Rubrics: Oral Communication & Integrative Learning

Presentation Peer Evaluation (20 points): After watching your assigned Impact presentations of your peers, complete the evaluation available in the Qualtrics link - what did the person do well? What could have been better? Did this person make a clear connection between their experiences and issue in their field? Familiarize yourself with the VALUE rubric (training video) and score this presentation. Justify your scores for each category so you will be prepared to fairly and accurately grade your classmates.

LinkedIn Profile (50 points): Students will create a professional LinkedIn profile that includes relevant skills, experiences, education, volunteer work or employment history which provides detail and support to potential employers. Students should use the marketable skills identified in the reflective journals through the semester to build the profile and speak to specific experiences that point to your qualifications.

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by East Texas A&M University have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

LMS Requirements:

<https://community.brightspace.com/s/article/Brightspace-Platform-Requirements>

The syllabus/schedule are subject to change.

LMS Browser Support:

https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a ETAMU campus open computer lab, etc.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

<https://community.brightspace.com/support/s/contactsupport>

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

Grievance Procedure: Students who have concerns regarding their courses should first address those concerns with the assigned instructor in order to reach a resolution. Students who are unsatisfied with the outcome of that conversation or have not been able to meet individually with their instructor, whether in-person, by email, by telephone, or by another communication medium, should then schedule an appointment with my

The syllabus/schedule are subject to change.

supervisor, Dr. Erin Webster Garrett. Where applicable, students should also consult University Procedure 13.99.99.R0.05 (“Student Appeal of Instructor Evaluation”).

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: <https://www.britannica.com/topic/netiquette>

ETAMU Attendance

For more information about the attendance policy please visit the [Attendance](#) webpage and [Procedure 13.99.99.R0.01](#).

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services

East Texas A&M University

Velma K. Waters Library Rm 162

Phone (903) 886-5150 or (903) 886-5835

Fax (903) 468-8148

Email: studentdisabilityservices@tamuc.edu

Website: [Office of Student Disability Resources and Services](#)

Nondiscrimination Notice

East Texas A&M University will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry Statement

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in East Texas A&M University buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and ETAMU Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

For a list of locations, please refer to the [Carrying Concealed Handguns On Campus](#) document and/or consult your event organizer.

Web url:

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>

The syllabus/schedule are subject to change.

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all ETAMU campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

ETAMU Supports Students' Mental Health

The Counseling Center at ETAMU, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counseling

AI use in course [Draft 2, May 25, 2023]

East Texas A&M University acknowledges that there are legitimate uses of Artificial Intelligence, ChatBots, or other software that has the capacity to generate text, or suggest replacements for text beyond individual words, as determined by the instructor of the course. Any use of such software must be documented. Any undocumented use of such software constitutes an instance of academic dishonesty (plagiarism). Individual instructors may disallow entirely the use of such software for individual assignments or for the entire course. Students should be aware of such requirements and follow their instructors' guidelines. If no instructions are provided the student should assume that the use of such software is disallowed. In any case, students are fully responsible for the content of any assignment they submit, regardless of whether they used an AI, in any way. This specifically includes cases in which the AI plagiarized another text or misrepresented sources. 13.99.99.R0.03 Undergraduate Academic Dishonesty 13.99.99.R0.10 Graduate Student Academic Dishonesty

AI websites and tools are expressly forbidden for content generation of any written assignments in this course (journals, proposals, presentations). You may use AI tools for ideating and brainstorming.

See D2L Content tab for a schedule of assignments.

The syllabus/schedule are subject to change.
