It will present students with the opportunity to demonstrate material learned through written assignments and listening exams. Special attention will be placed on diversity, equity and inclusion in the topics of both composers and performers.

Student Learning Objectives

Upon completion of the course, the student will be able to identify major developments of the clarinet and its literature throughout the course of music history. The student will also be able to draw connections between major composers in each period with their notable instrumental and vocal, sacred and secular, chamber and large-scale compositions to the clarinet literature. Students will also be able to identify prominent instrument builders and prominent performers and teachers who helped to shape the instrument's literature.
