School of Social Work & Council on Social Work Education-Specific Policies

Course Engagement

Final Evaluation and Grade Depend on both Classroom Attendance and Participation.
Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material. To earn a level of competency within a specific course, students must demonstrate mastery of BOTH content and active engagement.

Mastery of content areas is evidenced by the successful completion of course assignments such as written papers, group project deliverables, tests/quizzes, and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement in each course is the meaningful involvement in interactions with the Instructor, peers, and outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment or interviewing for an internship). Within the classroom setting, whether virtual or Face-to-Face (F2F), students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include, but are not limited to, participation in live, synchronous virtual classes, attending a F2F course when appropriate, interacting with peers in posted discussions, and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the Instructor.

Instructors are experts in each course content area and set the standards for students to meet to successfully complete each course.

Class Attendance and Participation

Face-to-Face Classes

Students are expected to attend classes scheduled to meet Face-to-Face, reflecting the responsibility inherent in developing as a social work professional. Roll call will be taken regularly. Students are expected to be on time and prepared to participate when class begins, as well as, be present throughout the entire class meeting. Classroom exercises, discussions, role plays, guest speakers, and other in-class experiential exercises are essential for a student's professional learning and continued development of self-awareness.

For classes that meet once a week, students can be absent up to 2 times through the semester with no penalty. If **3 absences** occur, the overall grade will be **dropped 1 letter grade**. If **4 absences occur** (25% of the scheduled classes), the student will be **dropped 2 letter grades** or may result in failing the class.

Online, Web-Enhanced Or Blended Classes

Just as students are required to attend face-to-face classes, students are required to log in and participate in online components. To receive credit for attendance online via D2L, students must log in and complete assignments in a timely manner. Not logging in to D2L to review the instructional material and completing assignments online during the appropriate time is the equivalent of an absence for each week this occurs.

Final evaluation and grades depend on both presence and participation. Students' grades will be significantly impacted by inadequate participation or lack of required time commitment each week established by each Instructor. Students are expected to spend a comparable amount of time in the online learning environment as they would in class (3 hours a week in the classroom). In addition, as in traditional F2F classrooms, students are expected to invest time in reading and studying class materials.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and the *National Association of Social Workers (NASW) Code of Ethics*.

Department Code of Conduct

The Academic and Professional Issues Committee (API) hearing is the formal path of due process for a student in regard to the concern being expressed. A student will be referred to the School of Social Work's API by faculty, field instructors, or faculty field liaisons when a concern arises regarding academic and student conduct and/or professional preparation. When "a student who fails to meet the professional expectation of the field for which he/she is preparing may be suspended from further study in that program by the department administering that program" as demonstrated through ethical and/or legal violations; aberrant disregard for School of Social Work Code of Conduct or other concerns as determined by the [Academic and Professional Issues Committee](#).

Graduate Students have the right to appeal to the Graduate Dean according to [University Procedure 13.99.99.R0.39](#).

Undergraduate Students have the right to appeal to the Dean of the College of Education and Human Services according to [University Procedure 13.99.99.R0.41](#)
