### Assessments

#### 1. COMMUNITY INTERVENTION PAPER (75 points) & COMMUNITY PRESENTATION (25 points) See Rubric: APPENDIX A

This assignment involves writing a 6–8-page paper that proposes a community intervention to a significant LOCAL community problem. Specify and describe the chosen community classification as being rural, urban or an intersection of both using information from the book or peer reviewed sources. This paper should reflect the content from all applicable assigned readings. The paper must be correctly referenced using American Psychological Association (APA) guidelines. Special attention should be given to the **correct style of referencing**. Papers need to be original and typed, with clear and lucid analyses and excellent grammar.

Please note that this is a graduate-level course, and the expectations are considerably higher than those at an undergraduate level. This research paper is intended to demonstrate your ability to **apply a macro-level model of intervention to a real problem situation**. The paper should be written in a formal, scholarly format.

In addition to reflected problem analysis, planned intervention and proposed change efforts consider issues related to economics, social policies, political influences, and involvement of various levels of systems (individuals, families, groups, organizations, and communities). Papers will be graded on quality of analysis, creativity, incorporation of theories and knowledge, and quality of writing.

*The syllabus/schedule is subject to change.*

Your selected problem should target **one specific community (rural, urban or an intersection of both)** or **regional area** and the content related to community assessment and resources should be specific to that community.

**Presentation**– You will be expected to present your identified problem, assessment data, and proposed solution to a body of LOCAL POLICY DECISION-MAKERS (such as city council, county commissioners, local school board, Council of Governments, public hearing on a particular issue, etc.). All communities have decision-making bodies that are open to public comment and input. However, you will need to find out the parameters of such input AHEAD OF TIME. Sometimes there is a time limit and advance request for permission to speak. Failure to present before an appropriate group will result in point deductions. You will need to include documentation (including a contact person) that can verify your presentation.

## **2. PETITION FOR CHANGE SEE RUBRIC (50 points)**

**See Rubric: APPENDIX B**

Students are to work with their assigned group and decide on a social or community problem and strategy to enhance social justice and quality of life. Students are to write a petition to be submitted through Change Communications ([www.change.org](http://www.change.org)). Each group should submit ONE draft of the petition. Groups are encouraged to get approval from their instructor on their selection of the problem. One member of the group shall then submit the petition online after receiving instructor approval incorporating any changes recommended/required by the instructor. This assignment is intended to have 2 purposes: one is to require students to use group skills and the other is to allow students to actively engage in community change and impact a social problem using an electronic venue. Points awarded for this assignment will include the instructor's assessment of the "group process", meaningful and constructive contributions, group member feedback directly to the instructor, AND the number of votes that the petition generates in the week following the posting (use your Facebook or other means to encourage others to sign your petition!)

## **3. GRASS ROOTS COMMUNITY BUILDING INITIATIVE (50 pts)**

**See Rubric: APPENDIX C**

Students are to choose a state or national grassroots organization or initiative. Students are to contact the founder, executive director, or other key staff to interview them about the organization. It should be a grassroots organization, NOT A SOCIAL SERVICE AGENCY, as described in Ch. 8. Students are encouraged to check with the instructor to ensure appropriate organization. Students are to include the role and relationship of clients in the operations of the program. Students are to write a 4-5 page summary of the information learned (paraphrase the input from the interview) and relate what they learned about the organization to content in Ch. 7. DO NOT LIFT INFORMATION FROM THE WEBSITE TO INCLUDE EXPLICITLY IN PAPER. The bulk of the content should be from the individual interviewed.

## **4. Midterm and Final Exam**

Students will complete an objective M/C and T/F exam at midterm (Week 5, Ch. 1-5 and Week 10, Ch. 6-10).

*The syllabus/schedule is subject to change.*

## **Due Date Policy**

No Late work will be accepted; thus, you will need to submit assignments within the designated timeframe.

## **School of Social Work & Council on Social Work Education-Specific Policies Course Engagement**

*Final Evaluation and Grade Depends on both Classroom attendance and Participation:*

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes, and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with the Instructor, peers, and outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities may include but are not limited to, participation in live, synchronous virtual classes, attending a Face-to-Face course when appropriate, interacting with peers in posted discussions, and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement of the time set during a semester by the Instructor.

Instructors are experts in each course content area and set the standards for students to meet

to successfully complete the course.

### **Student Conduct**

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and the *National Association of Social Workers (NASW) Code of Ethics*.

### **Department Code of Conduct**

The Academic and Professional Issues Committee (API) hearing is the formal path of due process for a student in regard to the concern being expressed. A student will be referred to the School of Social Work's API by faculty, field instructors, or faculty field liaisons when a concern arises regarding academic and student conduct and/or professional preparation. When "a student who fails to meet the professional expectation of the field for which he/she is preparing may be suspended from further study in that program by the department administering that program" as demonstrated through ethical and/or legal violations; aberrant disregard for School of Social Work Code of Conduct or other concerns as determined by the [Academic and Professional Issues Committee](#).
